STATE OF CALIFORNIA GEORGE DEUKMEJIAN, *Governor*

DEPARTMENT OF INSURANCE
100 VAN NESS AVENUE
SAN FRANCISCO, CALIFORNIA 94102

June 30, 1989

The Honorable George Deukmejian
Governor of the State of California
State Capitol
Sacramento, CA 95814

Dear Governor Deukmejian:

I am pleased to forward to you the One Hundred and Twenty-First Annual Report of the Insurance Commissioner in accordance with the requirements of Section 12922 of the Insurance Code.

This report provides a synopsis of the statements showing the general condition of the insurance business in California and a detailed statement of monies received by the Commissioner in 1988.

Respectfully submitted,

Roxani M. Gillespie

ROXANI M. GILLESPIE
Insurance Commissioner

PART I

DEPARTMENTAL RECEIPTS AND DISBURSEMENTS

The Department of Insurance manages security deposits and collects fees, gross premium taxes, surplus line taxes and other revenues. Departmental operating expenses are appropriated annually by the Legislature from the Insurance Fund.

10-Year Summary of Premium and Surplus Line Taxes Collected by the Department of Insurance for the State

GENERAL FUND

Fiscal Year Ending June 30	*Revenue*
1979	$419,340,933
1980	449,587,279
1981	455,627,689
1982	481,501,577
1983*	725,095,850
1984	492,240,634
1985	643,040,639
1986	831,197,147
1987	990,901,643
1988	1,083,898,017

* Includes $116,719,884 additional special prepayment tax collected.

10-Year Summary of Receipts and Disbursements of the Department of Insurance

Fiscal Year Ending June 30	*Receipts*	*Disbursements*	*Authorized Employees*
1979	$11,297,640	$10,775,584	376
1980	12,829,825	12,424,862	406
1981	15,772,934	14,206,105	407
1982	16,287,016	15,280,417	405
1983	19,556,670	15,793,946	405
1984	18,211,243	17,198,806	410

Travel-Out-of-State	430,691
Training	98,030
Facilities Operations	1,292,819
Consultant and Professional Services	2,740,794
Departmental Services	5,771,826
Data Processing	517,805
Equipment	731,585
Pro Rata	1,192,546
Internal Cost Recovery	(5,771,826)
Total Disbursed	$29,702,808

Securities on Deposit

10-Year Summary of Securities on Deposit with the Department of Insurance Under Statutory Requirements of the Insurance Code

Fiscal Year Ending June 30	
1979	$2,798,885,012
1980	3,504,073,801
1981	4,448,020,906
1982	4,894,631,750
1983	4,996,648,919
1984	4,882,642,573
1985	5,122,194,169
1986	5,249,646,628
1987	5,495,939,924
1988	$6,131,107,535

FIELD EXAMINATION DIVISION

Under the provisions of Section 730 of the California Insurance Code, the Insurance Commissioner is required to examine the business and affairs of every admitted insurer, whenever she deems necessary, to determine its financial condition and its compliance with all applicable laws. It has been the usual practice of the Field Examination Division to examine domestic insurers triennially except when financial or other conditions warrant examinations at shorter intervals of time. These examinations are at the expense of the insurer, organization or person as provided under Section 736 of the California Insurance Code.

The Insurance Commissioner, under the provisions of Section 1770 of the California Insurance Code, may examine the books and accounts of any surplus line broker for the purpose of determining whether or not the broker is conducting his business in accordance with the law. It has been the practice of the Field Examination Division to examine surplus line brokers to determine that the insurance placed with nonadmitted insurers is exportable, that each broker has the proper authority to bind insurance for his or her principal and that the California taxable premiums are properly reported and taxes thereon are properly computed and paid as required under the provision of Section 1775.5.

The Field Examination Division also provides examiners to manage the affairs of insurers which have been taken over by the Insurance Commissioner as conservator or liquidator.

Section 12389 of the Insurance Code provides for examination of underwritten title companies whenever the Commissioner considers it necessary. Similarly Section 12473 of the Code provides for periodic examination of home warranty companies.

The cost and expenses of all examinations are paid as prescribed in Section 736 of the California Insurance Code.

The examination of foreign and alien insurers transacting insurance business in this State is of vital interest to the Insurance Commissioner of California since a majority of the insurance business in this state is transacted by such insurers.

In order to give states other than the home state participation in examinations of insurers doing business in other jurisdictions, it has been the practice to conduct official examinations of such insurers jointly with supervisory authorities of a representative number of such other states. The medium through which such examinations, called "Association examinations", are arranged is the Financial Condition (EX4) Subcommittee of the National Association of Insurance Commissioners under a procedure which normally contemplates triennial examinations, but with a provision for examinations under special conditions at shorter intervals of time. To facilitate participation in association examinations this Committee has divided the country into four geographic zones of eleven or more neighboring states. Zone 4, which includes California, contains 14 states plus Guam and American Samoa. The insurance commissioners of each zone elect one commissioner to act as zone secretary. The zone secretary then designates one state to provide an examiner to represent his or her state and zone in Association examinations.

Several examiners have been trained to use audit retrieval software. These data processing specialists are utilized for sampling and other special processing techniques. This enables review of large volumes of data and a more thorough, reliable evaluation of accounting and statistical information regarding insurers' financial condition. Technical staff training has been targeted toward being able to understand and evaluate the complexities of insurers' computer systems.

The Field Examination Division employs claims specialists who are utilized in ascertaining case basis liabilities of insurers and in testing for compliance in the prompt payment of claims in accordance with insurance contracts and statutory regulations.

Actuaries assist field examiners in establishing aggregate life and disability reserves and property/casualty claim liabilities.

The Division also employs specialists to analyze reinsurance contracts during field examinations.

During the year 1989, the Field Examination Division conducted or participated in 451 examinations as follows:

	Examinations	
	Association	*Nonassociation*
Foreign Insurers	29	–
California Insurers	32	50
Calif. Underwritten Title Cos.	–	14
Calif. Home Warranty Cos.	–	3
Calif. Surplus Line Brokers	–	320
Special Exams	3	–
	64	387

FINANCIAL ANALYSIS DIVISION

This Division, through its Financial Analysis Bureau, analyzes and maintains ongoing surveillance of admitted insurers, fraternal benefit associations, grants and annuities societies, underwritten title companies, and home protection companies for the purpose of identifying companies in or approaching hazardous financial condition and recommends corrective action when necessary. It analyzes holding company transactions and acquisitions pursuant to the Insurance Holding Company System Regulatory Act. It assists the Legal Division by providing financial analysis of applications for certificates of authority, amended certificates of authority, securities permits, variable contract qualifications, underwritten title company licenses, and various other corporate affairs matters. The Division, through its Reinsurance and Financial Statements Bureau, is responsible for the coordination and development of reinsurance regulatory policies and performs reinsurance audits and analyses. It also provides information and assistance to other divisions relative to reinsurance practices and procedures, surplus line insurers and captive insurers. In addition, the Division, through its Tax Return and Audit Bureau, administers premium and surplus line tax laws and audits tax returns filed by insurers and surplus line brokers.

INSURANCE TAXES

Insurance taxes assessed in 1988 on business done during 1987, other than retaliatory and surplus line taxes, amounted to $1,003,919,110. This represents an increase in assessments of $109,542,697 or 12.25% over the previous year. Refunds of $79,917 were granted during the year.

Additional assessments proposed by the Insurance Commissioner to the Board of Equalization and the State Controller's Office totaled $62,883,127. Included in those assessments were $57,038,996 involving 31 companies for claims payments similar to the "Mini-Met" plan considered by the State Supreme Court to be subject to the gross premium tax in ***Metropolitan Life Insurance Company v. State Board of Equalization.*** Also included in those assessments were $3,384,033 involving 35 companies for life and accident & health premiums reported by those companies at the "qualified" tax rate of 0.50%. The staff of the State Board of Equalization has recommended that these premiums should be taxed at the higher "non-qualified" rate of 2.35%.

BASIS OF TAX

The basis of tax is the amount of "gross premiums" received, less return premiums, upon business done in the State, with the exception of title insurance and ocean marine insurance. Insurers transacting title insurance are taxed upon all income received in this State, with the exception of income arising out of investments. Ocean marine insurers are taxed upon underwriting profits.

RATE OF TAX

A tax rate of 2.35% is imposed on "gross premiums" received, with the exception that a lower rate of 0.50% is applied to premiums received under pension and profit sharing plan contracts which are "qualified" under certain sections of the United States Internal Revenue Code. Title insurers are also taxed at a rate of 2.35% of "income". Ocean marine insurers are taxed at a rate of 5% of underwriting profits.

RETALIATORY TAXES

Retaliatory taxes assessed and collected in 1988 on business done during 1987 amounted to $5,407,513. This is an increase of $102,118 or 1.92% over the previous year.

Additional retaliatory tax adjustments in the amount of $229,229 were proposed to the Board of Equalization during the year.

SURPLUS LINE TAXES

The surplus line tax rate is 3% and is assessed on surplus line premiums pursuant to California Insurance Code Section 1775.5. Surplus line taxes collected during 1988 for the calendar year 1987 totaled $33,448,286, an increase of $3,763,765 or 12.68% over the previous year (1987) and an increase of $15,140,417 or 82.7% over 1986.

ACTUAL ASSESSMENTS PER 1986 TAX RETURNS

	Fire, Marine, Casualty and Miscellaneous	*Life*	*Title*	*Ocean Marine Profits Tax*	*Totals*
California	$280,668,512	$42,215,805	$10,336,123	$456	$333,220,896

Totals	$675,183,240	$315,769,796	$12,750,924	$215,150	$1,003,919,110
Percent of Total	67.25	31.45	1.28	0.02	100.00

BUREAU OF INVESTIGATION

The Investigation Bureau is charged with the responsibility of enforcing the insurance laws in the State of California and protecting the public from economic loss and distress caused by violations of those laws. To fulfill this responsibility the bureau performs three major functions:

1. The Bureau screens and investigates applicants for licenses in accordance with statutory eligibility requirements, including evaluation of criminal and character backgrounds. Applicants include persons and entities filing for licenses to act as life and disability agents, life and disability analysts, fire and casualty agents, fire and casualty brokers, solicitors, surplus line brokers, bail bondsmen, travel agents, stock agents, administrators and insurance adjusters.
2. The Bureau conducts investigations of existing licensees and others connected with the business of insurance to ensure compliance with the applicable statutes and regulations. Bureau investigators gather and evaluate facts from insureds, insurance companies, producers, and others; interview witnesses and interrogate subjects; inspect and audit books, accounts and records; and maintain a computer data bank of information on current and past perpetrators.
3. The Bureau submits detailed reports of investigation with accompanying evidence to the Department's Compliance Bureau to facilitate disciplinary action against those persons and entities who have violated the law. Pursuant to Section 12928 of the Insurance Code, criminal violations are referred to the appropriate district attorney for prosecution.

1988 Highlights

- During 1988 Bureau personnel made 18 speeches to insurance producer and consumer groups. These functions serve as effective forums to review insurance laws and regulations; and to alert industry representatives and consumers of abusive practices, scams and other illegal activities occurring in the sale of insurance in California.

- The Bureau continued to allocate substantial resources in 1988 to the detection and investigation of unlawful conduct in the sale of "medigap" insurance to California senior citizens. The Bureau completed action on 136 such cases including the submission of 19 files to the Department's Legal Division for possible disciplinary action against the licensees involved. The files on 2 agents were referred to local law enforcement authorities for criminal prosecution in connection with the theft of thousands of dollars in medigap premiums.

Additionally, the Bureau developed a Protection Kit for California Seniors which was disseminated to seniors throughout the state to help prevent them from becoming victims of medigap abuse.

- The number of files submitted to the Department's Legal Division for disciplinary action increased substantially during 1988 from 566 in 1987 to 1227 in 1988. One significant reason for this increased production is the success of the office technician program implemented in fiscal year 1987–88. Under this program, certain functions previously assigned to investigators were reassigned to office technicians in the Bureau's Sacramento office. This reassignment of certain functions has allowed investigators to concentrate on more serious and time-consuming fraud cases. Also, the centralization of certain functions in the Sacramento office has improved the efficiency of those functions.

- In 1988 the Department of Insurance issued a publication for consumers entitled "A Buyer's Guide to Insurance", authored by James P. Harrington of the Bureau's San Francisco office. It is a step by step guide for consumers on how to buy insurance prudently and wisely. The key note of the brochure is the role of the consumer in protecting him or herself while buying insurance.

- The Bureau continued its efforts to monitor the activities of persons and entities claiming to operate under the Federal Liability Risk Retention Act of 1986. This federal law, which preempts certain state insurance regulations, can be abused by unscrupulous entrepreneurs to the detriment of California residents. The Bureau has attempted to control and prevent this abuse by ensuring that all aspects of the federal law are complied with and by enforcing those state laws that are not preempted. In April, the Department issued cease and desist orders to a purchasing group and its administrator charging them with operating in this state without proper licenses. Additional cease and desist orders are anticipated in 1989 as the result of investigations completed in 1988.

STATISTICS ON PUBLIC INQUIRIES RESPONDED TO

During 1988, the Bureau responded to a total of 38,896 telephone, interview and letter inquiries from the general public as listed below:

SF	*LA*	*SACTO*	*S.D.*	*Statewide Totals*
8,191	2,834	5,700	22,171	38,896

When responding to inquiries, Bureau personnel analyze the nature of the caller's problem; refer the call to the appropriate agency if not under our jurisdiction; advise the caller if there is no basis for a complaint and suggest other avenues of recourse, or if a valid complaint exists, advise the caller how to file the complaint.

STATISTICS ON RECOVERIES

The efforts of Bureau investigators facilitated monetary recoveries for policyholders and the general public consisting principally of claim payments and return premiums in the amount of ***$2,437,263.***

SF	*LA*	*SAC*	*S.D.*	*Statewide Totals*
$84,363	$131,654	$2,019,507	$201,739	$2,437,263

STATISTICS ON FIELD CALLS

Extensive travel is required of investigators in order to collect evidence and complete investigative assignments. During 1988, Bureau investigators made a total of ***1910*** field calls as listed below.

	SF	*LA*	*SAC*	*S.D.*	*Statewide Totals*
Field calls made to complete Investigations	443	1140	98	229	1,910

STATISTICS ON CRIMINAL ACTIONS

Frequently, the Bureau refers its completed investigation files to the appropriate local District Attorney for criminal arrest and prosecution of those individuals whose wrongful acts violate a penal provision of the Insurance Code.

The statistics for such referrals during 1988 are noted below:

Convicted	5
Filed with District Attorney, will be prosecuted	20
Under investigation, will be prosecuted	9
Under investigation, no determination	21
Rejected by District Attorney	1
Total	56

A tabulation of the Bureau's activities is shown below for the period January, 1988 thru December, 1988.

LICENSE BUREAU

FUNCTIONS

The License Bureau processes applications for insurance licenses, prepares and administers written qualifying license examinations, issues all production licenses, and maintains license records.

In connection with examination qualifications, the Bureau compiles manuals to assist applicants for licenses to prepare for examinations, formulates standards and guides for training courses required by law, and reviews and passes upon such courses submitted for approval by insurers, educational institutions, and others.

TEN YEAR RECORD OF LICENSE ISSUANCE

Licenses and Certificates Issued and Renewed, 1979–1988.

Year	*Number*	*Year*	*Number*
1979	114,064	1984	149,472
1980	99,109	1985	166,876
1981	125,439	1986	233,075*
1982	111,573	1987	159,078
1983	150,045	1988	181,158

* Volume increase due to conversion to year-round renewal.

NON-RESIDENT LICENSING

At the close of 1988, reciprocal agreements providing for mutual waiver of examinations of applicants for Nonresident Fire and Casualty licenses were in effect with five Provinces of Canada, the District of Columbia, Puerto Rico, the Virgin Islands, and all States and Commonwealths of the United States, except Wyoming.

Similar agreements for Nonresident Life Insurance licensing were in effect with the District of Columbia, Puerto Rico, the Virgin Islands, and all States and Commonwealths of the United States, except Hawaii and Wyoming.

TRAINING COURSES APPROVED

As of December 31, 1988, there were 34 approved Certificate of Convenience courses and 14 institutions with approved Insurance Broker's courses.

LICENSE ISSUED AND RENEWED

The following table shows, appropriately classified, the number of licenses issued and renewed in 1988.

BUREAU OF FRAUDULENT CLAIMS

Highlights

- In 1988 the Fraud Bureau made 205 arrests for insurance fraud and related crimes. This was an increase of 60% from the previous years arrests.
- In 1988 the Fraud Bureau appeared at 59 functions in the capacity of instructor, moderator or guest speaker, addressing approximately 2700 persons on the subject of insurance fraud detection and investigation.
- In 1988 Senate Bill 2344 was introduced in the legislature to help fund the increasing problem of automobile-related insurance fraud. This piece of legislation was signed into law and because of the proposed funding will double the Fraud Bureau investigative staff.
- In 1988 the Fraud Bureau's newsletter was compiled and will be printed and mailed in early 1989.

Fraudulent Insurance Claims

During 1988 the Fraud Bureau examined 5,033 suspected fraudulent claims representing $51 million. These suspected frauds were handled as follows:

Assigned for investigation	285
Included as part of assigned cases	1,743
Not opened because of investigation by other agencies	1,167
Not opened because of lack of evidence	1,133
Referred to allied agency with better jurisdiction	164

Fraud Bureau investigators conducted 14,427 interviews, made 2,241 investigative assists to other law enforcement agencies, and made 841 prosecution assists on criminal cases previously filed. At the close of 1988, the Bureau had 427 cases under investigation, many of them involving virtually hundreds of individual claim files believed to be fraudulent.

By the end of 1988 the Fraud Bureau opened 285 cases for investigation and closed 237 cases.

Disposition of the 205 arrests:

Convicted of insurance fraud and/or related offenses	55
Pending court action	94
Fugitives	48
Cases dismissed	8

The 205 individuals charged were responsible for the theft or attempted theft of more than $3 million through insurance fraud schemes.

LEGAL DIVISION

Functions

The primary duty of the Legal Division is to enforce compliance with the California Insurance Code by all admitted insurers, insurance producers, and any other person or organization engaging in the business of insurance in the State of California or applying to engage in such business.

Attorneys and their staff have, among others, the following functions which are allocated among the Corporate Affairs, Compliance, and Policy Approval Bureaus: (a) process applications for certificates of authority, or amendments thereof, to engage in the business of insurance in the State; (b) process applications for securities permits; (c) process applications for withdrawals from the State and applications for approval of mergers, consolidations, reinsurance of bulk of business, and sales and transformations of regulated insurers; (d) hold hearings under the Insurance Code and the Administrative Procedure Act; (e) review insurance policy forms when the California Insurance Code contemplates approval by the Department; (f) advise Department personnel on legal questions involving Department activities; (g) prepare and issue Department opinions interpreting the Insurance Code where it serves the regulatory purposes of the Department to do so; (h) prepare Department bulletins, rulings, and regulations as requested by the Insurance Commissioner or Chief Deputy for promulgation by the Commissioner; and (i) conduct liaison with the Attorney General on pending litigation and preparation of requests for Attorney General Opinions.

CORPORATE AFFAIRS BUREAU

Insurers Newly Admitted In 1988

The following is a list of newly admitted insurers showing their names, the location of their home states, the classes of insurance they are authorized to transact in California, and the dates of admission.

The numerical designations used for the several classes of insurance in the following list are those appearing in Insurance Code Section 100. Definitions of the several classes of insurance are contained in Insurance Code Sections 101 to 120, inclusive. Designations under "Classes of Insurance" other than the numerical designations indicate specific types of insurers.

Holding Company Registrations and Filings

During 1988, 448 registrations, amendments, or supplements thereto were filed. Twenty-one acquisition proposals were received, of which 16 were approved, 2 denied, 1 exempted, 1 put on hold, and 1 withdrawn. Six proposals for extraordinary dividends were received and approved. Twenty-eight applications for approval of material transaction of an extraordinary type were filed, of which 25 were approved, 2 withdrawn, and 1 exempted. Twenty-one applications were received requesting exemptions, to filings required with regard to change of ownership, extraordinary transactions and affiliations. Sixty-six foreign life insurance companies were found to be commercially domiciled in the State of California and 3 were thereafter exempted. Seventy-eight foreign fire and casualty companies were found to be commercially domiciled in California, and three were thereafter exempted. One application for exemption from commercial domicile status was denied.

Risk Retention Act Notifications

During 1988, notifications from 188 purchasing groups that they intended to do business in California under the provisions of the Federal Liability Risk Retention Act of 1986 were received and reviewed. Notifications from 20 risk retention groups chartered in other states that they intended to do business in California were received and reviewed. Amendments to the notifications filed by both risk retention and purchasing groups were also received and reviewed.

POLICY APPROVAL BUREAU

The Policy Approval Bureau performs most of the Legal Division functions involving life, disability (accident and health), and workers' compensation insurance products. It reviews policy forms for those lines of insurance when required by law. It advises the public, other government and Department personnel and legislators on statutes and regulations pertaining to life, disability, and workers' compensation insurance. It develops and administers Department regulations and bulletins on life and disability insurance product design, advertising, and administration. Bureau staff members also administer the Department's lifestyle discrimination regulations and hear appeals from Workers' Compensation Insurance Rating Bureau classification decisions.

COMPLIANCE BUREAU

The purpose of the Compliance Bureau is to resolve complaints alleging violation of statutes by insurers, producer licensees, and applicants for producers' licenses by determining the existence of wrongful acts and, when such acts have been found, implementing appropriate action and imposing appropriate penalties, including the screening out of unqualified applicants and the removal of unqualified persons from the insurance business, with the ultimate objective of protecting the public from economic loss and distress caused by fraud, dishonesty, misrepresentation and incompetence.

Compliance Actions Involving Insurers (and Other Similar Organizations)

American Guaranty Life Insurance Company

Upon a demonstration of good cause, the Commissioner issued to American Guaranty Life Insurance Company, an Oregon insurer, a termination of orders to cease and desist on April 12, 1988. The original orders to cease and desist were issued on October 16, 1984 and March 8, 1985.

Bel-Aire Insurance Company

On May 2, 1988 the Commissioner issued to Bel-Aire Insurance Company, a nonadmitted Missouri insurer, an order to cease and desist from the transaction of all insurance business in California. The basis of that order was that adjustments to the respondents' reported surplus reduced it to a negative $690,442. Those adjustments included a disallowance of reinsurance credit because there was no transfer of risk, a disallowance of a loan and interest receivable because the loan was improperly made to a company officer and an increase in unearned premium reserves. A hearing was scheduled for June 1, 1988 but was indefinitely continued at the request of respondent.

Cadillac Insurance Company

On March 17, 1988, the Commissioner issued to Cadillac Insurance Company, a Michigan insurer, a limited order to cease and desist from the transaction of all title insurance business in California. The basis of that order was that respondent had been transacting a title insurance business without being admitted for such class of business. A hearing was scheduled for April 15, 1988 but was indefinitely continued at the request of respondent.

Consumers Indemnity Company

On November 1, 1988, the Commissioner issued to Consumers Indemnity Company, a Washington insurer, an order to cease and desist from the transaction of all insurance business in California. The basis of that order was that respondent was found to be insolvent after an examination which revised respondent's surplus as regards policyholders downward to a negative $5,349,072. A hearing was scheduled for November 30, 1988, but on November 15, 1988 respondent executed a consent to the order and a waiver of hearing.

Diamond Benefits Life Insurance Company

On October 3, 1988, the Commissioner ordered Diamond Benefits Life Insurance Company, an Arizona insurer, to cease and desist from the transaction of all insurance business in California. The basis of that order was that a financial analysis of the respondent's surplus as to policyholders reported on June 30, 1988 reduced that surplus to a negative $10,883,635. A hearing was scheduled for November 2, 1988 but was indefinitely continued at the request of respondent.

Imperial Casualty and Indemnity Company

On September 9, 1988, the Commissioner issued to Imperial Casualty and Indemnity Company, a Nebraska insurer, an order to cease and desist from the transaction of all insurance business in California. The basis of that order was that respondent reduced its surplus to policyholders from $61,306,883 to $13,443,550 without explanation. The Nebraska Department of Insurance issued a cease and desist order to respondent on August 16, 1988. A hearing was scheduled for October 7, 1988, but on October 4, 1988 respondent executed a consent to the order and a waiver of hearing.

Kennesaw Life and Accident Insurance Company

On June 28, 1988, the Commissioner issued to Kennesaw Life and Accident Insurance Company, a Georgia insurer, an order to cease and desist from the transaction of all insurance business in California. The basis of that order was that respondent's surplus as to policyholders was adjusted downward by financial analysis to a negative $15,107,248. A hearing was scheduled for July 27, 1988 but was indefinitely continued at the request of respondent.

Luxury and Rental Auto Purchasing Group, Inc.

On April 13, 1988, the Commissioner issued to Luxury and Rental Auto Purchasing Group, Inc., formerly known as Limo Auto Rental Association, an order to cease and desist from the illegal transaction of all insurance business in California. The basis of that order was that respondent had illegally transacted an insurance business in California without having a certificate of authority. A hearing was scheduled for May 11, 1987 but was indefinitely continued at the request of respondent.

National Service Insurance Company

On December 5, 1988, the Commissioner issued to National Service Insurance Company, a California insurer, an order to cease and desist from the transaction of all insurance business. The basis of that order was that examination revealed that respondent's records were unauditable and/or unavailable. Most accounts had not been reconciled for at least 12 months. Additionally, respondent had not filed quarterly statements for the periods ending June 30, 1988 and September 30, 1988. Not maintaining books and records is a hazard to respondent's policyholders, creditors and the public. A hearing was scheduled for January 4, 1989 but was indefinitely continued at respondent's request.

Priority Land Title Company

On May 31, 1988, the Commissioner issued to Priority Land Title Company, a California underwritten title company, an order to cease and desist from the transaction of any new title insurance business except title orders which have already been opened and title search and examination that had already been commenced as of the date of the order. The basis for the order was that respondent had a net working capital of negative $165,122. A hearing was scheduled for June 20, 1988 but was indefinitely continued at respondent's request.

S.I.R. Services, Inc.

On April 12, 1988, the Commissioner issued to S.I.R. Services, Inc., an administrator for Luxury and Rental Auto Purchasing Group, Inc. an order to cease and desist from acting on behalf of an insurer in the transaction of all insurance business in California. The basis for that order was that respondent acted as a managing general agent for Luxury and Rental Auto Purchasing Group, Inc. without having an agent's license to do so and aided and abetted Luxury and Rental Auto Purchasing Group, Inc. in illegally transacting an insurance business in California. A hearing was scheduled for May 11, 1988 but was indefinitely continued at respondent's request.

Sentinel Life Insurance Company

On April 11, 1988, the Commissioner, upon a showing of good cause, issued a termination of orders to cease and desist. The orders to cease and desist originally had issued on October 16, 1984 and March 8, 1985.

Underwriters Life Insurance Company

On April 15, 1988, the Commissioner issued to Underwriters Life Insurance Company, a South Dakota insurer, an order to cease and desist from the transaction of all insurance business in California. The basis for that order was that respondent's surplus as regards to policyholders was a negative $1,581,080. A hearing was scheduled for May 13, 1988, and a default hearing was held on that date. On May 16, 1988, the Commissioner issued a permanent order to cease and desist.

Victory Life Insurance Company

On June 28, 1988, the Commissioner issued to Victory Life Insurance Company, a Kansas insurer, an order to cease and desist from the transaction of all insurance business in California. The basis for that order was that respondent's adjusted surplus as to policyholders was a negative $12,803,176. A hearing was scheduled for July 27, 1988 but was indefinitely continued at respondent's request.

PENDING

The following entities have cease and desist orders which originated prior to 1988 and which remain in effect.

American Independent Reinsurance Company
American Mutual Reinsurance Company
American Plan Life Insurance Company
Associated Life Insurance Company
Centaur Insurance Company
Cherokee Insurance Company
Compass Insurance Company
Constellation Reinsurance Company
Insurance Corporation of America
Iowa National Mutual Insurance Company
Knickerbocker Life Insurance Company
National Association of Retired Persons

Oasis Home Warranty Company
Pacific Automobile Insurance Company
Pacific National Insurance Company
Presidio Insurance Company
Protective National Insurance Company of Omaha
Reliable Insurance Company
Rochdale Insurance Company
United Bankers Life Insurance Company
United Fire Insurance Company
Universal Reinsurance Company
Vehicle Protection Savings Plan Corporation

Mandate Proceedings (Closed)

Timothy J. Driscoll v. Insurance Commissioner

On December 16, 1985, after a hearing in which it was determined that respondent Driscoll, as a principal involved in the operation and management of London West Excess & Surplus Line Brokers, Inc., a production agency licensed by the Commissioner, was delinquent in remitting premium due an insurer in consideration for insurance transacted in an amount not less than $300,000, and failed to maintain production agency records required by regulations of the Commissioner, the Commissioner ordered that respondent's licenses to act as a fire and casualty insurance agent and broker, and authority to transact insurance on behalf of several organization production agencies, be revoked, effective January 15, 1986. On January 15, 1986, the Commissioner's order of revocation was stayed, upon request of the respondent, through January 29, 1986. On January 24, 1986, respondent filed a petition for writ of mandate in Superior Court and on January 29, 1986, a hearing was held on an application for a stay of the Commissioner's order of revocation pending hearing on the petition for writ of mandate. The stay was denied, and the Commissioner's order of revocation became effective on January 30, 1986. The petition for writ of mandate was heard and the Honorable Lucy Kelly McCabe denied the petition on February 20, 1987. Driscoll has appealed to the Court of Appeal, First Appellate District, which on May 17, 1988, affirmed the trial court decision denying the writ.

Henry Hicks v. Insurance Commissioner

On February 20, 1985, the Commissioner summarily denied respondent Hicks' application for a license to act as an insurance solicitor on the grounds that respondent had been convicted of a felony and also had a prior insurance license revoked in the State of Michigan within five years before making the subject application. On May 14, 1985, respondent filed a petition for writ of mandate alleging that the Commissioner was required to give him a hearing notwithstanding the summary provision of California Insurance Code Section 1669 and that the Michigan revocation was not a proper basis for action in California. The matter was pending at the end of 1987 and is deemed abandoned.

Howard R. Range v. Insurance Commissioner

On March 19, 1985, after hearing in which it was determined that respondent Range had a felony conviction for lewd and lascivious acts upon a child under 14 years of age, the Commissioner revoked the license of respondent to act as a life and disability agent, effective April 18, 1985. On May 18, 1985, respondent filed a petition for writ of mandate in Superior Court. Range took no action since 1984, and the matter is deemed abandoned.

Lawrence Ray Sellars, Sr. v. Insurance Commissioner

On May 20, 1986, the Commissioner summarily revoked the licenses and licensing rights of respondent Sellars, to be effective June 23, 1986, based on respondent's conviction in the State of Alaska of a scheme to defraud, a felony, which conviction had become final. Sellars petitioned the Superior Court of California for a writ of mandate alleging the procedure of California Insurance Code § 1669(a) authorizing summary revocation of licenses based on a conviction of felony violated due process of law. The Superior Court issued its order on August 19, 1986, denying the petition. On September 29, 1986 Respondent filed a notice of appeal to the Court of Appeal. After briefing, the appeal was completed. The Court of Appeal informed the appellant that the appeal had been taken from a non-appealable order and that unless judgment in the lower court was submitted, the appeal would be dismissed on the court's own motion. Appellant did not submit a judgment and the appeal was dismissed. Remittitur was issued July 19, 1988.

STATUS OF PENDING MANDATE PROCEEDINGS

Stanley Paul Fox v. Insurance Commissioner

On September 23, 1987, after a hearing in which it was determined that respondent had misrepresented the terms of life and disability policies he sold, the Commissioner ordered respondent's license to act as a life and disability agent revoked. On November 18, 1987 respondent filed a petition for writ of mandate in the Superior Court, and obtained a stay of the Commissioner's order pending hearing on the petition. The court denied Fox's petition and Fox's licenses were revoked effective January 9, 1989. Fox has appealed to the Court of Appeal.

Litigation (Other Than Mandate)
(Closed)

City of Compton
v. Insurance Commissioner, et al.

On September 5, 1985, the City of Compton, the Southern Christian Leadership Conference, and certain taxpayers brought an action against the Commissioner, the State of California, and Farmers Insurance Exchange, alleging discrimination against residents of the City of Compton arising from the system of territorial rating authorized by California Insurance Code Section 11628 and prevalent in the State of California. Plaintiffs pray that the court declare said code section and the alleged discrimination resulting therefrom to be unconstitutional as a violation of the equal protection clause of the Constitution, and a violation of the Unruh Civil Rights Act. A demurrer to the complaint was filed by the Commissioner on November 12, 1985. Thereafter, the court sustained the demurrer of the Commissioner and of the codefendant, Farmers Insurance Exchange, without leave to amend. On May 5, 1986, plaintiffs filed notice of appeal. The matter was pending at the end of 1987. On January 6, 1988, the Court of Appeal sustained the trial court's judgment dismissing the complaint.

Joyce Fiske, et al.,
v. Insurance Commissioner

On October 3, 1985, plaintiffs filed in Superior Court a complaint for declaratory and injunctive relief to prevent the enforcement of California Insurance Code Section 790.03(f), which mandates gender-based differentials in the sale and contracting of privately-obtained life insurance and annuities, asking the court to declare that the section violates the equal protection and due process clauses of the California and United States Constitutions. The Commissioner filed an answer denying the substantive allegations of the complaint. Plaintiffs filed a motion for summary judgment, which was heard on December 15, 1986, and granted on January 5, 1987. The Commissioner appealed on February 5, 1987, and on May 2, 1988, the Court of Appeal reversed the trial court and ordered the action dismissed.

Heavenly Valley Resort Hotel
v. Founders Title Group and the Insurance Commissioner

On June 10, 1985, an amended complaint was filed in Superior Court alleging that defendant title company breached its contract to process credit card transactions in escrow because of alleged threats and interference from the Department of Insurance. Plaintiff sought an injunction to compel defendant Founders to comply with its contracts with plaintiff; to enjoin the Department of Insurance from the alleged acts of interference; and for declaratory relief and damages. The Commissioner filed an answer to said complaint on August 2, 1985, denying the material allegations of said complaint. On June 17, 1985, the Superior Court issued a preliminary order enjoining the Commissioner from taking any disciplinary action against Founders until such time as it has been determined by "order, rule, or regulation" that Founders' practice concerning handling of credit card vouchers in real estate sales escrows is contrary to law. A compromise settlement and mutual release agreement disposing of the matter was in process of preparation and signature at the close of 1987, and eventually was executed by the parties in the Spring of 1988.

Ronald C. Lapekas
v. Angèle Khachadour, Edward L. Middelton,
Wesley J. Kinder, Chatham Odum, Roger McNitt, et al.

On April 12, 1984, Ronald C. Lapekas, a former Department employee, filed in Superior Court a first amended complaint for damages alleging that former Insurance Commissioner Wesley J. Kinder, former Chief Deputy Insurance Commissioner Roger McNitt, and other named defendants formed a conspiracy to punish plaintiff for exercising certain legal rights, thereby depriving him of his property and civil rights. The matter was dismissed with prejudice by plaintiff on April 29, 1988.

William Lars Mathson III
v. Commissioner

On September 25, 1987, the Commissioner summarily revoked the licenses of Mathson on account of his conviction of violating California Insurance Code Section 782, misrepresentation of insurance policies for purpose of inducing sale or surrender, two counts, both misdemeanors. Mathson then petitioned the Superior Court for a writ of mandate. The Court issued its alternative writ on October 13, 1988. On January 17, 1989, the Superior Court denied Mathson's petition.

John Thomas Smith
v. Commissioner

On April 21, 1988, after complying with statutory requirements for due process, the Commissioner made her order revoking Smith's licenses to be effective May 21, 1988. Sometime on or after April 22, 1988, Smith requested a hearing, but that request was too late under the statute. On May 25, 1988, after the revocation was effective, Smith petitioned the Superior Court for a writ of mandate which on May 26, 1988 was denied.

Craig Louis Stevenson
v. Insurance Commissioner

On March 21, 1988, the Commissioner ordered that respondent's license as a bail agent be revoked by the way of a summary order. The summary order was based on respondent's conviction of a felony on June 5, 1987. Thereafter, respondent filed a petition of writ of mandate alleging that the Commissioner had abused her discretion in summarily revoking his license. On July 28, 1988, the Superior Court denied the petition.

Magdy Mahroas Thabet
v. Commissioner

On September 9, 1987, the Commissioner issued her Accusation against Thabet seeking to suspend or revoke the existing licenses of Thabet. A Statement of Issues was thereafter issued on November 23, 1987 against a pending brokers license application. On or about January 19, 1988, Thabet petitioned the Superior Court to dismiss the Accusation or, in the alternative, to set a date for hearing. Pending hearing of the petition, the case was set for hearing and the petition withdrawn.

United American Insurance Company
v. Roxani M. Gillespie, Insurance Commissioner, and
California Department of Insurance

On December 20, 1987, plaintiff filed in Los Angeles Superior Court a complaint seeking declaratory relief, TRO, preliminary and permanent injunction enjoining Insurance Commissioner from preventing plaintiff from collecting more than one month's premium at time when an application for policy to supplement Medicare is submitted if the applicant seeks coverage on a quarterly, semi-annual, or annual premium basis. On December 22, 1987, the court held hearing on plaintiff's *ex-parte* application for TRO and Order to Show Cause. The Court denied plaintiff's request for TRO, but set the matter for hearing on the Order to Show Cause re Preliminary Injunction for January 14, 1988 Los Angeles Superior Court. At the conclusion of the January 14, 1988 hearing, the Court denied plaintiff's request for preliminary and permanent injunction, and the case is now closed.

Status Of Pending Litigation (Other Than Mandate)

Allis-Chalmers Corporation

Allis-Chalmers filed a Chapter 11 petition in bankruptcy. It asserted therein that its policies with Fireman's Fund, which contained retrospective premium endorsements, were really self-insurance and that the funds due for such premiums were assets in the bankruptcy estate. Fireman's Fund had a letter of credit for those premiums from Manufacturers Hanover Trust Company. The result of Allis-Chalmers' position would be that insured workers having workers' compensation claims and judgment creditors would be treated as general unsecured creditors. Also at issue is state regulation of insurance. On October 13, 1987, Fireman's Fund brought an action in the U.S. Bankruptcy Court, Southern District of New York, to challenge this position and the various Insurance Commissioners, including the Insurance Commissioner of California, were named as defendants. The Commissioner filed an answer seeking dismissal of the complaint against her on constitutional and factional grounds. The matter was pending at year-end.

American Fire, Theft & Collision Managers, Inc., dba American Pacific Auto Plan v. Roxani M. Gillespie and John Tomashoff

On January 19, 1988, plaintiffs sued the defendants pursuant to Title 28 U.S.C. 1331 and 1343 for alleged deprivation of civil rights under provision of 42 U.S.D. 1983. The complaint is premised on the theory that the Commissioner issued a bulletin stating that automobile repair service contracts may constitute insurance and those engaging in that business could be engaged in the unlawful transaction of insurance in the state. Further, that any person who sells such repair contracts, which are later held to be insurance contracts, may be subject to charges of violating Section 703 of the Insurance Code. It was further alleged that defendant Tomashoff, in violations of plaintiff's due process rights, entered into a course of conduct to unilaterally stop the sale of plaintiff's automobile repair service contracts. Answers have been filed to said complaint on behalf of the defendants. The case is in the status of discovery proceedings at this time.

Jasper Ballance, et al.,
v. California State Board of Equalization, et al., and
Insurance Commissioner

On September 18, 1985, plaintiffs, as trustees or administrators of employee benefit plans, filed in U.S. District Court a class action complaint for declaratory and injunctive relief against the State Board of Equalization, the State Controller, and the Insurance Commissioner to extend the U.S. District Court holding in *General Motors Corporation, et al., v. State Board of Equalization, et al.*, to ERISA plans which were not before the court in the General Motors action. In the *General Motors* case, the trial court held that the State of California cannot tax ERISA benefit plans based upon "defendants' interpretation of gross premium"; and the court enjoined the State from collecting such taxes. On May 27, 1986, the court denied a motion by plaintiffs for a preliminary injunction, and a motion by plaintiffs for class action certification was denied without prejudice to being renewed. On June 17, 1986, the court ordered the trial on the merits to be advanced and consolidated with the motion for preliminary injunction. On July 10, 1986, a Notice of Appeal was filed by the plaintiff in the United States District Court. The matter was pending at the end of 1988.

Danny Boyd
v. Insurance Commissioner, et al.

On or about August 12, 1982, complaint was filed alleging negligent failure on the part of the Department of Insurance, through its employee, to notify and instruct plaintiff Boyd that, in order for him to continue to receive in an uninterrupted manner all statutory benefits under a workers' compensation policy, it was necessary for plaintiff to file a claim with the California Insurance Guaranty Association within a specified period. Plaintiff alleged breach of mandatory duty under Insurance Code Section 1063.7. The matter was still pending at the end of 1988.

Cal-Farm Insurance Company
v. Insurance Commissioner, et al.

Complaint filed on November 9, 1988, with the California Supreme Court. With the enactment of Proposition 103 on November 8, 1988, plaintiff sought declaratory and other relief against implementation and enforcement thereof, and request for immediate stay. Alternative writ of mandamus was issued December 7, 1988.

California Automobile Assigned Risk Plan (CAARP) and Industrial Indemnity Company v. State of California, John K. Van De Kamp and Roxani Gillespie

On November 9, 1988, plaintiff filed with the Los Angeles County Superior Court a complaint seeking judicial declaration that Insurance Rate Reduction and Reform Act (Proposition 103) does not apply to CAARP or its participating insurers or their assigned risk business and that Insurance Code Sections 11620–11626.1 and Insurance Commissioner's regulations promulgated thereunder continue to govern CAARP operations exclusively. Entry of stipulated order on December 22, 1988.

California State Automobile Association Inter-Insurance Bureau v. Roxani M. Gillespie, Insurance Commissioner and David E. Kuizenga, Respondent and California Automobile Assigned Risk Plan, Real Party in Interest

On November 13, 1987, plaintiff filed with the San Francisco Superior Court petition seeking Writ of Mandate and for Stay of Action of Governing Committee of California Automobile Assigned Risk Plan ordering random distribution of private passenger assignments to Petitioner on a statewide basis. On December 18, 1987, the court continued its Stay of Certain Motions adopted by the Governing Committee of the Assigned Risk Plan relating to the making of random assignments to petitioner, and remanded the entire matter back to the Insurance Commissioner for public hearing upon the substance of the motions and the Urban Credit Program in light of the statutory requirements of the Assigned Risk Plan. After completion of the public hearing on June 3, 1988, and issuance of Decision by the Insurance Commissioner upholding the action of the Governing Committee ordering random distribution of private passenger assignments to Petitioner on a statewide basis on September 1, 1988, Petitioner refiled its Petition for Writ of Mandamus and for Stay of Action of the Governing Committee on September 23, 1988. The Stay was granted on September 28, 1988, and after holding hearings on the alternative writ on November 29 and December 13, 1988, the Court ordered further hearings to bolster the administrative record to reflect that the Insurance Commissioner has considered all other reasonable alternatives to statewide random distribution of risks which, to the extent reasonably possible, would take into account the scope of Petitioner's territorial operations, if in fact there exists any such alternative. Pursuant to the court order, additional hearings on this matter has been scheduled for March 30, 1989.

Commissioner
v. Automobile Maintenance Contracts, Inc., et al.

On March 22, 1988, the Commissioner brought a suit for injunction against defendants alleging that they were transacting an insurance business in the State of California without a certificate of authority from the Commissioner; in violation of California Insurance Code Section 700(a). Defendants operated what they called an automobile repair service issuing written contracts providing for repair of collision and comprehensive type damage to motor vehicles and for indemnity by a nonadmitted insurer in case of total loss, subject to the provisions of the contract. The Commissioner also alleged that defendants acted as agents for certain nonadmitted insurers in violation of California Insurance Code Section 703. A preliminary injunction has been obtained by the Commissioner.

Consumers Union of United States, Inc.
v. Bruce Bunner, Insurance Commissioner, and California Department of Insurance

This complaint for injunctive and declaratory relief, officially filed in Superior Court on July 17, 1985, prays for a court order declaring Insurance Code Sections 750, 751, 752, 755.7, and 761 unconstitutional as violations of Article I, Section 7, of the California Constitution; declaring the further expenditure of public funds for enforcement of such code sections to be improper, wasteful, and unlawful; and for preliminary and permanent injunctive relief requiring the Commissioner, the Department of Insurance, and its employees to cease enforcing these rebate code sections and to cease expenditure of public funds in any such enforcement. The Department filed an answer to the complaint, denying the substantive allegations. The California Association of Life Underwriters intervened as a defendant in the action. The case status is one of discovery. The Court on July 15, 1987 made its Decision rendering the judgment in favor of the defendant and against the plaintiff on the ground that there was ample evidence to support the statutory provisions. The plaintiff has appealed to the Court of Appeal. The appeal had been fully briefed and was awaiting oral argument at the end of 1988.

General Motors Corporation, et al.,
v. Board of Equalization, et al., and Insurance Commissioner

On October 20, 1983, General Motors Corporation and others filed a complaint in United States District Court for declaratory, injunctive, and remedial relief against the State Board of Equalization, the State Controller, and the Insurance Commissioner. It was plaintiffs' contention that the decision in the case of *Metropolitan Life Insurance Co. v. State Board of Equalization,* 32 Cal.3d 649, 186 Cal.Rptr. 578 (1982) that claim payments made with employer funds under a "minimum premium" employee group health benefit plan are subject to California premium tax is not applicable to a health benefit plan established under ERISA. On December 20, 1984, the court held that ERISA preempts the State's tax laws and enjoined the State of California from taxing insurers based on the interpretation of "gross premiums" previously upheld in the *Metropolitan* case. The state has filed an appeal, which was pending at the end of 1988.

Insurance Commissioner v. Ruben Ward, dba Ward's Insurance, (Complaint) and Ruben Ward, dba Ward's Insurance, v. Robert Quinn, George Deukmejian, et al. (Cross-Complaint)

The Commissioner originally sued a producer (Ward) of the defunct American Reserve-Reserve Insurance Company complex for monies due on a disputed account with the companies. On January 31, 1983, Ward cross-complained against the Commissioner and his attorney, alleging intimidation, harassment, discrimination, malice, oppression, and misuse of the judicial system in prosecution of the original action, and requesting both compensatory and exemplary and punitive damages resulting therefrom. The matter was still pending at the end of 1988.

Palazuelos v. Commissioner, et al.

On December 20, 1988, plaintiff filed an action against the Commissioner, Allstate Insurance Company, and others seeking damages. The action against Allstate was for breach of contract and negligence and CIC Section 790.03(h) violations. The action against the Commissioner alleges breach of statutory duty for failing to investigate plaintiff's complaint against Allstate and others relating to his claim against Allstate on a fire loss. The matter was pending at the end of 1988.

W.P.L.A. Inc. v. Department of Insurance, et al.

On September 30, 1986, an action for damages was brought against the Department of Insurance and certain employees seeking damages for the alleged mishandling of premium funds allegedly due plaintiff during the conservation of certain entities under the control of Clyde Rodney Hamblin. The action was pending at the end of 1988.

Wearing, et al. v. Insurance Commissioner (Respondent) and Fireman's Fund Insurance Company (Real Party in Interest)

In June 1987, a petition was filed in Court of Appeal, First Appellate District, for writ of mandamus arising out of activities of Fireman's Fund in allegedly transacting mortgage guarantee insurance on behalf of B. Woodson Company, a San Rafael-based mortgage broker. Petitioner requests alternate writ of mandamus compelling the Insurance Commissioner (a) to certify to the Marin and San Francisco County District Attorneys the facts of alleged violations of Insurance Code Section 700 by Fireman's Fund in transacting mortgage guaranty insurance without the requisite Certificate of Authority; and (b) to initiate conservatorship proceedings against Fireman's Fund and order directing the Commissioner to conduct, as conservator, such of the business of Fireman's Fund as is necessary for a complete and equitable accounting and satisfaction of its obligation toward all persons injured by Woodson Company's failure to perform obligations owed to them by the mortgage broker; (c) or to show cause why the Commissioner has not done so and why such peremptory writ should not issue. On June 18, 1987, the Petition for Writ of Mandate was denied for insufficient cause for seeking such writ in the Court of Appeal in the first instance. Later in June 1987, Petition for Writ of Mandate was filed in Marin County Superior Court identical to that originally filed in Court of Appeal. On November 3, 1987, the Petition for Writ of Mandate was denied. On December 22, 1987, a Notice of Appeal from the Judgment/Order was filed by petitioners. Said appeal was pending at the end of 1988.

WORKERS' COMPENSATION HEARINGS

Investigation into Compliance with California Experience Rating Plan relative to Combined Experience Modification of Staffing Alternatives, Inc., and Certain Other Business Entities

Responding to concern about the increasing use of labor contractors and its possible effect on the Workers' Compensation Minimum Rating Law, a new Rule was adopted in 1985. Based on information in its records, the Workers' Compensation Insurance Rating Bureau of California in March of 1986 petitioned the Commissioner to conduct an investigation to determine compliance with the Rule by a labor contractor, Staffing Alternatives, Inc., and those employers utilizing the services of this contractor. Subpoenas were issued to several employers, and to the contractor, to appear with certain business records. The hearings commenced in April of 1986 and are continuing through year-end 1987. The Bureau in March 1988 declared that sufficient information was developed through the hearing to enable it to determine experience modifications properly; hence, the hearings have been terminated.

Appeals from Decisions of the Workers' Compensation Insurance Rating Bureau ("WCIRB")

During 1988, thirteen appeals were received. Thirteen hearings on appeals were held. Ten appeals were pending at the end of 1988. One appeal was abandoned.

Dann Services, Inc.

On June 3, 1985, an appeal was received from Dann Services, Inc., protesting the WCIRB's alleged late notice of a classification and rate change which affected the appellant's workers' compensation insurance premium. Following a hearing, the matter was remanded to the WCIRB for further study. After completing the further study, another hearing was held before the WCIRB. The employer again appealed, which appeal was heard December 15, 1988. The decision was pending at year-end.

Sandyland Nursery

The employer appealed, on July 8, 1987, from a decision of the WCIRB. The employer has a very high experience rate. The employer believes that much of the problem lies with its former insurer. The employer appealed to the WCIRB, which produces the experience modification. The WCIRB stated that it takes the information supplied by the insurer, and computes the experience rate. It does not, nor cannot, modify the numbers submitted by the insurer. The matter was pending at the end of 1987. A hearing on this matter was held February 23, 1988. A decision upholding the WCIRB position was rendered March 11, 1988.

Speed Structural Welding Service, Inc.

On July 14, 1987, the employer requested a hearing on its appeal from a decision of the WCIRB. The dispute arises over the assignment of classification 5040(1), and Code 5059 to the employer's operations. The matter was heard April 4, 1988. A decision sustaining the WCIRB decision was rendered June 10, 1988.

San Joaquin Packaging Corporation

On July 17, 1987, San Joaquin Packaging Corporation requested a hearing on an appeal from a decision of the WCIRB which had determined that a change of interest which occurred was in fact material, therefore wiping out a substantial credit experience modification. A hearing was held December 14, 1987. A decision upholding the WCIRB was rendered March 9, 1988.

California Mechanical

On August 10, 1987, the employer appealed a decision of the WCIRB concerning classification of its workers who perform duties on-site in oil fields. The matter was pending at year-end. A hearing was held February 23, 1988. A decision upholding the WCIRB was rendered April 21, 1988.

National Distribution Agency, Inc.

On August 25, 1987, the employer appealed a decision of the WCIRB concerning its assignment of Code 8292, "warehouses" to its operations. A hearing on the matter was held April 4, 1988. A decision upholding the WCIRB was rendered May 12, 1988.

Coy Construction, Inc.

On October 18, 1987, the employer appealed a decision of the WCIRB which sustained an assignment of various carpentry classifications to employer's operations. The matter was heard May 3, 1988. A decision upholding the WCIRB was rendered August 15, 1988.

Buyway, Inc.

On December 16, 1987, employer appealed a decision of the WCIRB concerning the assignment of Code 8748, "automobile or automobile truck salespersons" to the employer's payroll. This matter was heard May 3, 1988. A decision was rendered August 16, 1988, which found that employees who solicited auto sales strictly by telephone would not have to take automobile sales Code 8748. The hearing determined that the appellant did not in fact operate an automobile dealership.

Guitar Center Management Corporation

On January 22, 1988, we received a request from the employer for a hearing to appeal a decision of the WCIRB. The dispute involved a determination by the WCIRB that a change of interest in the ownership of the appellant corporation was "material", rather than "nominal". Thus, under the rules of the California Experience Rating Plan, the appellant's earned experience modification reverted to 100%. Following a hearing on February 23, 1988, a decision was rendered March 22, 1988, sustaining the prior decision of the WCIRB.

Point Plastic, Inc.

On February 1, 1988, the employer appealed a decision of the WCIRB, requesting a hearing. The appeal involved the assignment by the Bureau of Code 4478, Plastic Goods Manufacturing, to the entire operation. Appellant sought a lower classification for its packaging operation. Following a hearing held May 3, 1988, a decision was rendered July 28, 1988, sustaining the classification assignment of the WCIRB.

Laura Scudders, Inc.

On April 5, 1988, appellant appealed, requesting a hearing on a decision of the WCIRB involving the classification assignments to certain sales people employed by the appellant. This appeal was abandoned by appellant June 16, 1988.

Chrome Nickel Plating

On April 8, 1988, appellant appealed a decision of the WCIRB. The dispute involved the classification assigned by the Bureau to certain sales people employed by the appellant. A hearing was scheduled for December 1988. The employer was unable to make the scheduled date. We are continuing to work with the employer in trying to obtain a suitable hearing date.

Wells Interiors, Inc.

On April 15, 1988, the employer appealed a decision of the WCIRB, requesting a hearing. The dispute involved classifications assigned by the Bureau, Code 8017(1), "stores", v. 9521 "house furnishings . . ." to certain installing operations of the employer. The employer was unable to appear at a scheduled December 15, 1988 hearing on the matter. We are still trying to arrange an acceptable hearing date.

Circus Vargas Corporation

This appeal was originally filed by Circus Vargas on May 3, 1988. At the time, it was determined that the employer had not yet exhausted all available remedies with the Bureau. Following a November 8, 1988 meeting of the Bureau, the employer has reinstated its appeal from this latest Bureau decision. The matter is still pending at year-end.

Tutor-Saliba-Perini

The joint venture/employer appealed a classification decision of the WCIRB on June 7, 1988. The appeal involved a specific freeway construction project being done by the joint venture for Cal Trans. The employer urged that a special exception be made to permit an excavating class to be assigned to the work involved because of special problems that were encountered. A hearing on the matter was held December 1, 1988. (A January 24, 1989 decision sustained the Bureau's original assignment of the road building classification to the operation in question.)

Industry West

Employer appealed a classification assignment of the WCIRB involving a resident property manager managing certain property of the appellant. The appeal was received August 4, 1988. A hearing on the matter was held on December 15, 1988. (A February 14, 1989 decision sustained the classification assignment of the WCIRB.)

Producers Photo Lab, Inc.

On September 13, 1988, employer appealed the classification assignment of the WCIRB to certain employees of appellant who engaged in producing still photos used in advertising (for the motion picture industry). A hearing on the appeal was held on November 30, 1988. (The decision, sustaining the Bureau's classification assignment, was rendered January 5, 1989.)

United States Safe Deposit Company

On October 20, 1988, employer appealed a decision of the WCIRB concerning the classification assigned to its operations. Because of the "light" nature of the items involved, appellant did not feel that the classification of warehouse or truckmen to its various operations was appropriate. A hearing on the matter was held on December 1, 1988. (A decision dated January 10, 1989 sustained the Bureau classification assignment.)

New Horizon Care Corporation

On December 1, 1988, the appellant appealed a decision of the WCIRB. The appeal involves a decision by the WCIRB that certain changes in ownership/management of appellant were not "material", but were in fact "nominal". Thus, a high experience modification was maintained rather than replaced by a 100% experience modification. The matter was still pending at the end of the year. (The hearing was held February 21, 1989.)

Associated Appliance Service, Inc.

On December 13, 1988, employer appealed a change of ownership decision of the WCIRB. At the request of appellant's counsel, the matter has been put off indefinitely to permit counsel to further study its material. The matter was pending at the end of the year.

James Lund, d/b/a Contract Services Company, et al.

Upon petition of the WCIRB of March 22, 1988, an investigative file was opened in this matter. To date, several witnesses have been examined. The matter is still open as of the end of 1988.

REQUESTS FOR LEGAL DIVISION OPINIONS

During 1988, the Legal Division received 43 requests for legal opinion and issued 42.

ORDERS TO FURNISH INFORMATION

Under Insurance Code Section 12950, et seq., certain interested parties may request from the Insurance Commissioner information on specific insurance policies. The Commissioner may issue an Order to Furnish Information to the insurer involved, requiring that the insurer provide the requested information. During 1988, four Orders to Furnish Information were served on insurers, requiring them to produce requested information.

NOTICES OF HEARING AND/OR PROPOSED CHANGES IN THE REGULATIONS OF THE INSURANCE COMMISSIONER

March 25, 1988	File No. RH-262 - Notice of Proposed Action to Adopt, Amend and Repeal Regulations of the Insurance Commissioner Relating to Medicare Supplement Insurance Advertisements.
April 1, 1988	File No. RH-263 - Notice of Hearing in Accordance with California Insurance Code Section 1215.8 to Assess and Evaluate the Current and Future Acquisition Activities of BATUS, Inc., and B.A.T. Industries, plc with Regard to Farmers Group, Inc.
May 18, 1988	File No. RH-264 - Notice of Investigative Hearing to Consider the Action of the California Automobile Assigned Risk Plan Governing Committee in Adopting Motions 1 and 2 Relating to Commencement of the Distribution of Automobile Injury and Property Damage Liability Insurance Assignments at Random.
September 18, 1988	File No. RH-265 - Notice of Proposed Changes in the Workers' Compensation Insurance Manual and Experience Rating Plan Revisions to be Effective on or about January 1, 1989.
September 27, 1988	File No. RH-266 - Notice of Investigative Hearing Public Hearing to Assess the Time in Which Proceeds of Items Drawn on California Financial Institutions are Generally Collected.

ADOPTED REGULATIONS

November 30, 1988	Ruling No. 268 (File No. RH-265) - Proposed Changes in the Premium Rates Classification of Risks, Rules and Regulations Relating to Workers' Compensation Insurance and Employers Liability Insurance.

MISCELLANEOUS

The following notifications were sent to property/casualty insurers during 1988:

April 1988	New Schedule P for 1989, as adopted by the Blanks Task Force on March 10, 1988.
December 27, 1988	Letter to all admitted insurers reporting on the Fire and Casualty blank or on the Life and Accident blank to submit certain 1988 Annual Statement data in machine readable format or magnetic tapes.

CONSUMER SERVICES DIVISION

The Consumer Services Division consists of the following bureaus and units:

Claims Services Bureau

Rating Services Bureau

Underwriting Services Bureau

Division Workflow Statistics
1988

Phone calls	227,913
Files opened	37,535
Files pending	7,187
Dollars recovered	$16,041,802
Market Conduct Examinations	41

Following is a brief discussion of each bureau's/unit's functions and results:

Claims Services Bureau

The personnel of the Claims Services Bureau receive and investigate complaints from the general public concerning claims matters to determine whether insurers are carrying out their contracts pursuant to California Insurance Code. The following is a summary of complaint activity during 1988:

Files Opened	*Files Pending*	*Phone Calls*	*Dollars Recovered*
20,047	3,530	34,823	$10,661,932

In addition, it conducts Market Conduct Examinations of insurance companies' claim departments on California business. During calendar year 1988 it examined 41 insurance companies. The reports resulting from the examinations contain specific recommendations for the company to implement. The Department follows up via re-examination or other means to see that corrective action has been taken.

The Claims Services Bureau, in 1988, released its fourth "annual" Personal Lines Automobile Complaint Ratio Study designed to aid consumers in making more informed choices on shopping for automobile insurance.

It also released its first Personal Lines Fire and Homeowners Insurance Complaint Ratio Study.

Subsequent to fires in Solano County and surrounding areas, the Claims Services Bureau dispatched personnel to several Disaster Relief Centers to assist consumers with insurance related questions or problems.

In addition, staff participated in the Redondo Beach disaster assistance program to help the victims of that fire.

In the area of Credit Life and Credit Disability Insurance, the Claims Services Bureau issued Bulletin 88-5, notifying the insurance industry that specific ongoing claims practices by the insurance industry were not in conformance with California Insurance Code and Department requirements.

Rating Services Bureau

The Rating Services Bureau is responsible for handling consumer complaints regarding rating matters. These complaints include, but are not limited to, misquotes in premium by the agent or broker, improper application of surcharges, and general inquiries regarding rate increases adopted by insurance companies in California.

In addition to handling consumer complaints, this bureau also released a comparison survey of auto insurance premiums for California consumers. The survey profiled a sampling of 13 companies which cover a broad spectrum of our driving population.

Complaint Activity

Files Opened	*Files Pending*	*Phone Calls*	*Dollars Recovered*
4,241	725	15,108	$1,689,360

Underwriting Services Bureau

The Underwriting Services Bureau is accountable for evaluating, investigating, and resolving consumer complaints based on underwriting questions, requests for assistance or advice of a non-claims nature from insurance consumers, insurance agents and brokers, and insurance company staff. Examples include: Failure to return unearned insurance premiums, cancellation or non-renewal of insurance policies, refusal to insure, billing problems, refusal to provide a policy, agent misrepresentation, etc.

The Underwriting Services Bureau opens files on specific written complaints and investigates them to be sure insurers are complying with provisions of the Insurance Code. Also, the bureau is responsible for a statewide Toll-Free Hotline through which the bureau assists an average of 11,000 consumers monthly. In addition, consumer protection presentations are given by bureau personnel for various organizations; consumer pamphlets are prepared for distribution; proposed/pending legislation is analyzed; and the Department's Speakers Bureau activities are coordinated.

The Toll-Free Hotline provides the insurance consumer with easy access to the Department of Insurance. The unit acts as a clearinghouse for all manner of complaints, offering immediate assistance to some complainants and directing others to the appropriate area within the Department. In addition, the Hotline Unit is able to refer calls to other resources when the complaint does not fall within the Department's jurisdiction.

The help given is invaluable to the consumer and cannot be measured solely by the number of calls handled. As this unit has matured, productivity has steadily increased while the quality of information/assistance provided has been maintained.

Following is a summary of bureau complaint statistics for 1988:

Complaint Activity

Files Opened	*Files Pending*	*Phone Calls*	*Dollars Recovered*
13,247	2,932	177,982	$3,690,510

The Speaker's Bureau continues to be one of the Departments primary vehicles for direct public contact. This function has grown in both scope and importance. Following is a list of speeches given by department personnel during 1988.

ANNUAL REPORT OF THE INSURANCE COMMISSIONER FOR THE YEAR ENDED DECEMBER 31, 1988

PART II

LIQUIDATION AND CONSERVATION PROCEEDINGS TO DECEMBER 31, 1988

The following tabulations summarize the activities of the Insurance Commissioner in respect to insurers under her direction and control as Conservator or Liquidator. The tabular listings represent assets and changes in assets of companies in conservation or liquidation during the calendar year ending December 31, 1988. These tabular listings are presented in accordance with the methods of accounting employed by the companies in conservation or liquidation and may not be in accordance with Generally Accepted Accounting Principles (GAAP). Special reports, audited in accordance with Generally Accepted Auditing Standards (GAAS), have been separately issued and are prepared to attest to the Commissioner's accountability over the assets and cash transactions as well as changes in assets other than cash in the Commissioner's control. These audit reports may be obtained from the office of the Insurance Commissioner.

Status of Estates

In addition to the data contained in the tabular portion of this report, the status of the above listed estates in Conservation or Liquidation as of December 31, 1988, can be summarized as follows:

California Estates

Assured Homeowners Group, Incorporated

Conservation Order August 31, 1987
Liquidation Order March 1, 1988

The Commissioner obtained a conservation order on Assured Homeowners Group after it was determined that the company was insolvent. The company wrote home protection contracts primarily in Orange County. After a futile attempt to rehabilitate the company, a liquidation order was obtained.

Builders Mutual Surety Company

Conservation Order February 13, 1985
Liquidation Order October 11, 1985

This Bonding company specialized in writing contractor's performance, payment and completion bonds for minority contractors. Attempts to rehabilitate the company through the infusion of new capital was unsuccessful. The Liquidator is evaluating the bond claims at this time.

C-F Insurance Company

Conservation Order March 29, 1985
Liquidation Order December 18, 1985

The Commissioner continued to settle financial guaranty bond claims at the court approved rate of 23.75 cents on the dollar and the Commissioner also continued to settle surety bond claims. At December 31, 1988 there were 501 open property and casualty claims with the California Insurance Guarantee Association. Continued efforts on the part of the Liquidator to settle bond claims and dispose of real property acquired in connection with the defaults under the financial guaranty bonds is enhancing the C-F estate toward ultimately making a large percentage on the dollar distribution to approved claimants.

California Life Insurance Company

Conservation Order April 25, 1986
Liquidation Order July 3, 1986

The Commissioner obtained a conservation order on California Life after it was determined the company was insolvent as a result of its affiliated companies not being able to repay amounts due California Life totalling more than $4.3 million. The company was licensed in 32 states, many of which have life and health guaranty funds that took over the payment of California Life claims in those states. California has no such fund. The last date to file claims in the liquidation proceeding was January 15, 1987. The Liquidator is evaluating the claims at this time in order to fix the liabilities so that an early distribution of assets can be made to approved claimants.

California Standard Indemnity Company

Conservation Order September 6, 1985
Liquidation Order October 1, 1985

A conservation order was obtained after an examination determined that the company's books and records were in such poor condition that the examiners could not complete the examination. The Liquidator has spent a great deal of time reconstructing the financial records of the company so that the Guarantee Association could calculate return premium and verify coverage to pay claims. The company wrote only automobile and liability lines of business.

Capital Bond and Insurance Company

Conservation Order September 11, 1986

This surety company was found to be insolvent after it was determined that its reinsurers, all non-admitted companies, were not performing under the reinsurance treaty with the reinsurance intermediary. The Insurance Commissioner as Conservator has sued the reinsurers and the reinsurance intermediary for failure to perform under the treaty with a trial date to be set during 1989.

Cascade Title Company

Conservation Order June 23, 1980
Liquidation Order August 25, 1980

The Commissioner had an application pending before the court to close this estate in December 1987. A question of priority of unremitted employee Federal withholding taxes resulted in a delay in closing this estate. The Federal courts have ruled that unpaid obligations due the Internal Revenue Service are a super-priority to be paid ahead of all other claimants. The Liquidator is awaiting a concurring decision from a second Federal appeals court before re-applying to the State court to close this estate.

Central State Title Company

Conservation Order February 26, 1985
Liquidation Order April 16, 1985

This underwritten title company was licensed in Stanislaus County and, in addition to its title business, also conducted an escrow operation. The conservation order was obtained after an examination of the company's books and records determined it to be insolvent. This, coupled with management's determination that it could no longer remain in operation, resulted in the liquidation order being entered.

Colony Charter Life Insurance Company

Conservation Order January 15, 1987
Liquidation Order May 7, 1987

The Commissioner conducted an examination of Colony Charter Life Insurance Company as of September 30, 1986 and discovered that the company had booked assets for reinsurance recoverable, leasehold improvements and funds in transit that were non-admissable. This resulted in the insolvency of the company and a conservation order was obtained. The company was licensed in nine states. All but California have a life and health insurance guaranty association that is processing the policy claims against the company. The liquidator is processing the California claims at this time. The sale of the company's home office building enhanced the estate.

Commonwealth Land Title Company of San Francisco

Conservation Order November 19, 1984
Liquidation Order June 18, 1985

This underwritten title company was licensed in Santa Clara County and in the City and County of San Francisco. The principals of the company advised the Commissioner of their intention of going out of business by surrendering their license. By virtue of the failure of the company to submit to a final examination by the Insurance Commissioner, the order appointing Conservator was obtained. The few open title and escrow orders were transferred to Stewart Title Company of California. The Liquidator is handling the remaining files where funds were held for later disbursement. The Liquidator anticipates closing this estate in the near future.

Compac Insurance Company

Conservation Order April 7, 1988

Compac Insurance Company was a wholly owned subsidiary of Mission American Insurance Company. The conservation order was obtained as part of the overall rehabilitation effort of Mission American Insurance Company which was acquired by National American Insurance Company of California in 1988.

Eldorado Insurance Company

Conservation Order August 2, 1978
Liquidation Order December 11, 1978

The California Insurance Guarantee Association had 217 open claims at year-end, 211 of which were workers' compensation claims. The Liquidator was also processing 39 workers' compensation indemnity claims and a number of lifetime medical claims. Pursuant to the decision of the Superior Court, upheld by the Court of Appeal, the California Insurance Guarantee Association is responsible for the processing and payment of California longshoremen and harborworker claims. In light of this, it is anticipated that this estate will remain open at least two more years.

Enterprise Insurance Company

Conservation Order November 26, 1985
Liquidation Order February 24, 1987

The rehabilitation efforts to save the Mission companies failed and on February 24, 1987 the Insurance Commissioner was appointed Liquidator of Enterprise Insurance Company. As of December 31, 1988 the California Insurance Guarantee Association had 2,067 open claims of which nearly 50 percent were workers' compensation claims.

Essex Insurance Brokers, Inc.
Essex Insurance Managers Corporation
Paragon Insurance Brokers Corporation
Pegasus Insurance Management Services
Statistical Recording Safety Corp.

Conservation Order August 20, 1982
Liquidation Order April 3, 1984

Essex Insurance Brokers, Inc., was Managing General Agent for Kenilworth Insurance Company, a non-admitted, Illinois-domiciled insurer now in liquidation in Illinois. An investigation by the California Department of Insurance, now complete, found a substantial shortage of premium trust funds in these five inter-related companies. The San Diego Superior Court approved the distribution of the premium trust funds and securities to the liquidators of insurers to which they belonged. The Liquidator anticipates closing these estates in the next year or two.

First Centennial Title Company

Conservation Order September 27, 1983
Liquidation Order December 9, 1983

This underwritten title company, which also conducted an escrow business, was based in San Diego but also operated in Orange, Riverside and San Bernardino Counties. The conservatorship and subsequent liquidation of the company was necessary after a proposed merger with another title company failed. First Centennial Title was found to be insolvent as of March 31, 1983, after an examination of its financial condition. The Liquidator expects to resolve a dispute regarding the ownership of a number of assets in the near future.

Golden West Insurance Exchange
Exchange Management

Conservation Order April 18, 1984
Liquidation Order June 13, 1984

The California Insurance Guarantee Association is still in the process of settling policy claims. The Conservator was successful in selling real estate owned by the Exchange for $900,000. Additionally, reinsurance recoveries may be sufficient to assure a 100 percent distribution to all claimants.

Great Falls Insurance Company

Conservation Order May 25, 1988
Liquidation Order November 11, 1988

Great Falls Insurance Company was placed in conservatorship after the examination of the company found it to be insolvent. The Conservator was successful in reinsuring all of the inforce business on the company's books with Northland Insurance Company and Sutter Insurance Company which enhanced the company's financial position. The Conservator entered into discussions with several parties to rehabilitate the company. After the last effort collapsed, a liquidation order was obtained. Great Falls was licensed only in California.

Homeland Insurance Company

Conservation Order May 6, 1987
Liquidation Order September 25, 1987

The insolvency of Homeland Insurance Company was brought about by its workers' compensation business in the oil patch states of Texas and Oklahoma. The company was also licensed in Virginia. Homeland fronted for a number of offshore captives located in the Caribbean. As of December 31, 1988 the California Insurance Guarantee Association had 1,353 open claims, all but 136 in the workers' compensation category.

Imperial Insurance Company & Signal Insurance Company

Conservation Order September 23, 1975
Liquidation Order January 10, 1978

It will probably be several years before these liquidations can be closed. The Liquidator has successfully resolved all of Imperial's Arizona medical malpractice claims that exceeded the $100,000 limit of the Arizona Property and Casualty Insurance Guaranty Fund and has made a 70 percent distribution to those claimants. At December 31, 1988 the California Insurance Guarantee Association had 44 open Signal medical malpractice claims, up from 38 the previous year, and 8 medical malpractice, 5 auto and 4 workers' compensation claims in the Imperial liquidation.

Independent Indemnity Company

Conservation Order February 28, 1984
Liquidation Order April 16, 1984

The Liquidator has made recoveries in excess of $800,000 as a result of settlement on class action lawsuits in the J. David Dominelli foreign exchange investment scheme. This recovery will enable all creditors to receive a 100 percent distribution on their claims. The Liquidator is resolving the final claims in this liquidation and contemplates closing this estate in 1989.

Insurance Emporium of America, Inc.
Rowley and Associates, Inc.

Conservation Order April 29, 1983
Liquidation Order February 7, 1985

These two companies, which administered group health plans for three life and disability insurers, filed for protection under Chapter 11 of the Federal Bankruptcy Act. After complaints were filed by two of the insurers regarding the disposition of premium trust funds held by the companies, the Federal Court determined that it lacked jurisdiction and requested that the Insurance Commissioner obtain conservation orders in state court. The Chapter 11 proceedings were then terminated. All premium funds held by the Conservator have been released to the two insurers involved.

Interco Underwriters Exchange and Interco Underwriters Corp.

Conservation Order January 18, 1983
Liquidation Order February 24, 1983

This inter-insurance exchange and its Attorney-in-Fact were put into conservation after its officers had asked for a joint conservatorship. A later review of the exchange's books and records revealed it to be hopelessly insolvent. The exchange insured a number of truck lines, taxicabs and car rental companies. The California Insurance Guarantee Association is processing all policy claims with 6 open claims remaining.

Los Angeles Insurance Company

Conservation Order September 22, 1972
Liquidation Order March 7, 1973

The Liquidator will receive the final proceeds on the disposal of the company-owned second trust deeds on desert property early in 1989. Once this has been accomplished, this estate can be closed.

Mission American Insurance Company

Conservation Order February 2, 1987

The Commissioner obtained an order of conservatorship of Mission American Insurance Company after its parent, Mission Insurance Group, entered bankruptcy proceedings. During 1988 the rehabilitation of the company was completed when National American Insurance Company of California acquired certain of Mission American's assets and liabilities. All of the Mission American Insurance Company policies were re-written into National American Insurance Company of California upon their expiration.

Mission Insurance Company

Conservation Order October 31, 1985
Liquidation Order February 24, 1987

The Conservator approved a Letter of Intent dated February 11, 1986, providing for the rehabilitation of Mission Insurance Company and its subsidiaries, namely, Enterprise Insurance Company, Holland-America Insurance Company, Mission National Insurance Company and Mission Reinsurance Corporation. Before the rehabilitation plan could be implemented, the companies as a group suffered a severe cash shortage and it was necessary to proceed to liquidation. The Conservator appointed a Special Deputy Insurance Commissioner to collect reinsurance balances and it was necessary to sue 144 reinsurers who had refused to pay balances to the Mission companies.

Mission National Insurance

Conservation Order November 26, 1985
Liquidation Order February 24, 1987

A liquidation order was obtained on this Mission Insurance Company subsidiary after the rehabilitation of the Mission companies proved futile. The California Insurance Guarantee Association had 1,968 open Mission National claims at December 31, 1988.

Nor-Cal Cooperative, Inc.

Conservation Order July 8, 1977
Liquidation Order March 28, 1978

The San Mateo Superior Court had approved the Commissioner's Report and Account and application to terminate the liquidation proceeding in December 1988. However, the judge who heard the matter had not signed the order as of December 31, 1988. Signature of the judge is expected in January 1989.

Northwestern Title Company of Butte County

Conservation Order January 27, 1986
Liquidation Order July 18, 1986

This underwritten title company was also licensed to do an escrow business in Butte County. The company closed its doors in late 1985 and requested the Insurance Commissioner's help in dissolving the company in January 1986. The company's real estate, the last remaining asset, was sold in 1988. The Liquidator expects to close this estate in 1989.

Physicians & Surgeons Insurance Exchange

Conservation Order August 10, 1983

On June 26, 1984, the court approved an agreement providing for the reinsurance and assumption of the business in force and all liabilities of this exchange by Fremont Indemnity Company. The Conservator expects to terminate this conservatorship in 1989.

Priority Land Title Company

Conservation Order June 2, 1988
Liquidation Order October 12, 1988

This underwritten title company was licensed in Orange and Riverside Counties. The Commissioner negotiated with a number of other underwritten title companies to acquire Priority Land Title Company. Ultimately the court approved the acquisition on Priority's assets and certain of its liabilities for $200,000.00 by Lincoln Title Company. Thereafter, the shell of Priority was placed in liquidation.

S & H Insurance Company

Conservation Order January 28, 1985
Liquidation Order April 16, 1985

This company, one of the Baldwin Insurance-United group, became insolvent when the former president won a court judgement of $8,000,000. After the liquidation, the California Insurance Guarantee Association assumed the payment of policy claims. An agreement was approved by the court allowing the Conservator to settle claims under bonds guaranteed by the Small Business Administration and collect from the government agency.

Silverado Title Company

Conservation Order April 30, 1979
Liquidation Order November 9, 1979

There are a number of matters in litigation that must be settled before this liquidation can be closed. One of the suits naming two of the three majority stockholders was settled out of court for $80,000 and the Liquidator obtained a judgement against the third for $260,000. The Liquidator is currently determining the collectibility of these judgements. The Liquidator plans to make a 50 cent on the dollar distribution to all approved claimants in early 1989.

Southern Valley Title Company

Conservation Order September 26, 1988

Southern Valley Title Company is a Kern County-based underwritten title company. The Kern County Superior Court approved a plan whereby principals of a newly formed underwritten title company would acquire Southern Valley's assets and certain of its liabilities. As of year-end the newly formed company was awaiting the issuance of a license by the Department of Insurance.

Surety Insurance Company of California

Conservation Order May 23, 1984
Liquidation Order August 20, 1984

The last date for filing claims in this liquidation was March 5, 1985. There is a large number of collateral items, including cash, jewelry and trust deeds, that must be disposed of and in some cases retained in the estate before this liquidation can be closed.

TMIC Insurance Company Inc.

Conservation Order April 10, 1986
Liquidation Order April 27, 1988

On April 28, 1986, the Court approved a Rehabilitation Plan that allowed this company to continue operation in a somewhat restricted fashion. The company is allowed to write a limited amount of new business to fulfill commitments it had made before the conservatorship and it was allowed to renew all premiums. The plan provided for the payment of Equity Programs Investment Corporation (EPIC) claims in five annual installments and provided for an option for the Conservator to pay all other claims over a three-year period. The plan also provided for an infusion of surplus by the parent, Ticor Corporation, of $10,000,000 in 1986, 10,000,000 in 1988 and 10,000,000 in 1989.

A study by a leading actuarial firm predicted that the company would be solvent and could be released from conservation in 1996. However, a dramatic drop in premium income experienced during 1986 and 1987 and an increase in claims over anticipated levels caused the Conservator to retain a second actuarial firm to determine the viability of the Rehabilitation Plan. The company was found to be hopelessly insolvent and a liquidation order was obtained. The court has scheduled and held status conferences to decide such issues as claim definition and offset matters.

Tower Indemnity Company

Conservation Order December 11, 1964
Liquidation Order June 1, 1965

As previously reported, this company wrote primarily workmen's compensation insurance. All policies under workmen's compensation have been fully reinsured by a group of insurers, both foreign and domestic, writing workmen's compensation insurance in California. As of December 31, 1988, there still remained a small number of workmen's compensation claims to be settled and paid. The estate will remain open.

Transcontinental Intermediaries, Ltd.

Conservation Order July 26, 1984
Liquidation Order August 20, 1985

This agency was allegedly acting as a surplus lines broker without the proper license and allegedly had collected substantial sums of premium monies and not remitted such sums to the insurers. The Commissioner applied to the court to close this estate late in 1988. However, a dispute arose between the largest creditor and the estate of the shareholder as to whom the proceeds of the estate should be paid. That matter is now proceeding through litigation channels and the estate will remain open until it is settled.

Trans Continental Title Company

Conservation Order January 7, 1988
Liquidation Order July 14, 1988

This San Bernardino County-based underwritten title company was placed in conservatorship after it was determined that the company was insolvent. The company was licensed in San Bernardino, Riverside and Ventura Counties. The court approved the sale of the company's assets and certain of its liabilities to Gateway Title Company for $927,500.00. The Liquidator is currently evaluating creditor claims.

Western Carriers Insurance Exchange
Western Carriers Underwriters

Conservation Order April 27, 1983
Liquidation Order May 12, 1983

The Oregon and California Insurance Guarantee Associations are still in the process of settling Western Carrier policy claims. The Idaho Guaranty Association has paid all known claims in that state. It will probably be several years before this estate can be closed.

Winfield Title Inc.

Conservation Order December 11, 1980
Liquidation Order May 15, 1981

On October 21, 1982, the Ventura County Superior Court approved an agreement providing for a fund to cure the escrow shortage of Winfield Title, Inc. This agreement provided for the contribution of $600,000 by twelve title insurance companies; the fund included $560,000 of interest earned on escrow funds held by the Liquidator; the statutory deposit of $100,000; the $140,000 proceeds of a fidelity bond claim and $288,250 in settlement of three suits brought by US Life Title Insurance Company as a result of the escrow shortage. Pursuant to the agreement all funds not claimed at December 31, 1984 were returned to the contributors in 1985. The Liquidator hopes to close this estate within the next two years.

Insurers Domiciled in Foreign States

Allied Fidelity Insurance Company

Conservation Order May 5, 1986
Liquidation Order June 2, 1986

The Insurance Commissioner's Application for Order Appointing Conservator followed the Indiana Insurance Commissioner's obtaining of an Order of Rehabilitation of Allied Fidelity Insurance Company. Allied was licensed to write only surety and automobile insurance in the State of California but concentrated primarily on surety. However, the company also wrote some mortgage guaranty insurance for which it was not licensed. The Liquidator is resolving the bail bond claims while the Indiana Insurance Commissioner is resolving the civil bond claims. Assets in California include real property which the Liquidator is in the process of selling.

American Druggists' Insurance Company

Conservation Order March 27, 1986
Liquidation Order April 28, 1986

This Ohio-based multi-line property and casualty insurer was placed in rehabilitation in Ohio after efforts to recapitalize the company failed. The California court orders were obtained in order to activate the California Insurance Guarantee Association and commence the payment of California claims by that organization. The company's sole asset in California consists of a statutory workers' compensation deposit.

American Excel Insurance Company

Conservation Order May 6, 1988
Liquidation Order May 26, 1988

This Iowa-based insurer wrote primarily automobile coverages through managing general agents. California obtained a conservation order after Iowa obtained a similar order in that state. The California Insurance Guarantee Association is processing and paying California claims.

American Fidelity Fire Insurance Company

Conservation Order October 23, 1985
Liquidation Order November 20, 1985

The Superintendent of Insurance of the State of New York obtained an Amended Order of Rehabilitation on American Fidelity Fire Insurance Company on September 20, 1985. The New York order cancelled all policies effective October 20, 1985 outside the State of New York and stopped all claim payments. California followed with conservatorship and liquidation orders in order that the California Insurance Guarantee Association could take over the processing and payment of the outstanding California claims. The company wrote primarily tavern owner's liability and motel package policies in California.

American Reserve Insurance Company

Conservation Order May 30, 1979
Liquidation Order July 2, 1979
and

Reserve Insurance Company

Conservation Order May 30, 1979
Liquidation Order June 26, 1979

The Rhode Island Liquidator of American Reserve Insurance Company closed this estate in 1985. The California Insurance Guarantee Association has one open claim involving a minor that will remain open for some time. However, the Rhode Island Liquidator has already settled with the Guarantee Association making it possible for the California Liquidator to close this estate.

At year-end the California Insurance Guarantee Association had 543 open Reserve Insurance Company claim files. It will probably be several years before these claims are settled and this liquidation can be terminated.

Carriers Insurance Company

Conservation Order January 21, 1986
Liquidation Order February 20, 1986

Carriers Insurance Company was found to be insolvent and was placed in liquidation in Iowa. Similar action was taken by the California Insurance Commissioner in order to commence the payment of claims by the California Insurance Guarantee Association. The company wrote primarily long-haul trucking risks and workers' compensation insurance.

Consolidated Mutual Insurance Company

Conservation Order November 30, 1978
Liquidation Order June 26, 1979

At December 31, 1988, the Liquidator was in the process of settling seven workers' compensation claims and the California Insurance Guarantee Association had no open claim files.

Consumers Indemnity Company

Conservation Order December 5, 1988

This Washington-based insurer was licensed for the automobile line only in California and wrote automobile extended warranties in this state. An Application for Order Appointing Liquidator is pending before the Los Angeles Superior Court. The company has no assets in California.

Excalibur Insurance Company

Conservation Order September 17, 1984
Liquidation Order October 16, 1984

The Commissioner of Commerce of the State of Minnesota was appointed rehabilitator of Excalibur Insurance Company on August 24, 1984. Rehabilitation efforts failed and the company was placed in liquidation in Minnesota on September 5, 1984. California followed with orders of conservatorship and liquidation in order to get the California claims paid by the California Insurance Guarantee Association. Excalibur wrote mostly workers' compensation business in California.

Federated Security Insurance Company

Conservation Order November 19, 1969

The Insurance Commissioner is in the process of assembling the various documents terminating the court proceedings in the domiciliary state and transferring Federated Security's policies to the current carrier. Once this is completed, the Conservator will apply to the court to terminate the conservatorship of Federated Security Insurance Company.

Glacier General Assurance Company

Conservation Order March 4, 1985
Liquidation Order December 3, 1985

This company domiciled in Montana, wrote its greatest volume of insurance in California including a large number of financial guaranty and mortgage guaranty bonds. The company owned several hundred pieces of property. In 1987 the Liquidator reached an agreement with the Bank of America regarding the release of those properties on which it had valid liens. The Liquidator is in the process of selling those other properties to which Glacier General had title. The California Insurance Guarantee Association is currently processing the California policy claims, primarily in medical malpractice.

Great Global Assurance Company

Conservation Order February 4, 1986
Liquidation Order April 4, 1986

This Arizona-based property and casualty insurer wrote primarily automobile insurance in California through two managing general agencies. The company filed its September 30, 1985, financial statement showing it to be insolvent. The Insurance Commissioner learned that the company had ceased paying claims in January 1986 and obtained a liquidation order in order to have the claim payments resumed by the California Insurance Guarantee Association. As of December 31, 1988, the Guarantee Association had 186 open Great Global claims.

Holland-America Insurance Company

Conservation Order November 26, 1985
Liquidation Order February 24, 1987

This Missouri-based member of the Mission Insurance Group was ordered liquidated along with the other four Mission companies. The company was licensed in only three states. The California Insurance Guarantee Association is processing all open California policy claims.

Ideal Mutual Insurance Company

Conservation Order January 8, 1985
Liquidation Order January 25, 1985

After the Superintendent of Insurance of the State of New York obtained a rehabilitation order on Ideal Mutual Insurance Company on December 21, 1984, conservation and liquidation orders were obtained by the Insurance Commissioner so that the California Insurance Guarantee Association could take over the payment of the outstanding California claims. The New York rehabilitation order cancelled all policies outside the State of New York on January 26, 1985 and stopped the payment of all claims. Ideal Mutual specialized in food industry risks and wrote restaurant workers' compensation and multi-peril packages extensively in California.

Integrity Insurance Company

Conservation Order January 5, 1987
Liquidation Order March 9, 1987

This New Jersey-domiciled company was placed in conservatorship after the New Jersey Insurance Commissioner found the company insolvent, partially as a result of its reinsurance involvement with the Mission Insurance Group. The California Insurance Guarantee Association is processing 1,107 open California policy claims.

Iowa State Travelers Mutual Assurance Company

Conservation Order March 4, 1983

This Iowa-domiciled life and health insurer wrote primarily group health insurance in California through several group health insurance administrators. All claims are being handled by the domiciliary receiver in Iowa. The Conservator transferred funds that had been taken over in California to the Liquidator in Iowa with the agreement that California claimants would be treated equally with all other claimants.

Midland Insurance Company

Conservation Order April 15, 1986
Liquidation Order May 9, 1986

This New York-domiciled multi-line property and casualty insurer wrote an extensive commercial liability program as well as workers' compensation insurance in California. The California policy claims are being processed by the California Insurance Guarantee Association.

Mission Reinsurance Corporation

Conservation Order November 26, 1985
Liquidation Order February 24, 1987

This Missouri-domiciled company was ordered liquidated along with the other Mission companies.

Pacific Marine Insurance Company

Conservation Order June 29, 1987

Pacific Marine was placed in rehabilitation by the Washington Insurance Commissioner when it was determined that the company was insolvent. The Washington Insurance Commissioner is attempting to rehabilitate the company at this time. The company wrote primarily workers' compensation, longshoremen and harborworker coverages and ocean marine insurance in this state.

Proprietors' Insurance Company

Conservation Order August 4, 1981
Liquidation Order September 10, 1981

The California Insurance Guarantee Association is still in the process of settling the California policy claims. At year-end, there were four open claims. After these claims have been settled, the California liquidation proceeding can be terminated.

Reliable Insurance Company

Conservation Order February 22, 1988
Liquidation Order May 27, 1988

Reliable Insurance Company wrote primarily commercial automobile in California, mostly trucking risks. The Commissioner had the company under a Cease and Desist Order. Therefore, only runoff exposure was in place as of the date of liquidation. The claims are being handled by the California Insurance Guarantee Association.

Transit Casualty Company

Conservation Order December 4, 1985
Liquidation Order January 8, 1986

This Missouri-based property and liability insurer had its home office located in Los Angeles. Transit Casualty Company wrote primarily commercial auto risks including long-haul trucking, busses and taxicab fleets and also personal automobile policies in California. The California Insurance Guarantee Association is processing the California claims.

Trenton National Insurance Company

Conservation Order October 19, 1987

The Commissioner obtained a conservation order at the request of the Arizona Director of Insurance. This Arizona company was not licensed in California but had its principal office in this state. The conservation order was obtained based upon the company writing business in California without a license. The company owns an interest in three parcels of undeveloped land in San Diego County. The conservation order was obtained for the purpose of securing California assets. The Arizona Director of Insurance has obtained a receivership order and Arizona is processing California claims.

United Bonding Insurance Company

Conservation Order March 10, 1971
Liquidation Order August 20, 1971

The primary Conservator of this company is the Commissioner of Insurance of the State of Indiana. He is processing all claims, including those in California and will make the distribution to creditors on a nationwide basis.

ACTUARIAL DIVISION

Section 10479.5 of the California Insurance Code provides that the Commissioner value the reserve liabilities of a life insurance company and issue an official certificate or certificates describing the reserve liabilities. Such valuations are made for all life insurers domestic to the State of California. In 1988 for the valuation made as of December 31, 1987.

	Companies	*Certificates*
Insurers for which certificates were issued	48	1,227
Zero reserves, no certificate requested	2	0
Pending at the end of 1988	13	213

The total fees charged for review and certificates were $39,690.

Section 10163.3 of the California Insurance Code requires that life insurance policies or riders providing for future premium determination, estimates of future experience, or inability to determine minimum values must be filed with the Commissioner before they can be marketed. This is not intended to mean policy approval, but merely, a filing to remind the insurers of possible violations, if any, which could be reviewed in the course of a financial examination. For the year 1988:

	Filings
Pending files 1/1/88	117
Opened	864
Closed	895
Withdrawn	78
Sent to Legal Division	44
Returned	2
Pending files 12/31/88	12

The total fees received for the filings under Section 10163.3 were $95,540.

Bonds with market value of $217,756 are on deposit in states other than California. These bonds and funds held by other states are subject to claims and expenses charged by other states.

* Cash loss advance, funds held by other states and funds held by ceding reinsurers are subject to loss and expense development and will have little value for liquidation distribution.

** Reinsurance recoverable for loss payments will have some rights of offset, the amount of which will develop as recoverable is billed and collected.

1 All live births with at least one type of congenital anomaly.

2 Each type of congenital anomaly contains only those births with that anomaly.

3 See page 259 for definitions of congenital anomaly codes.

4 Birth records with "unknown congenital anomalies" include those that do not state whether or not there are congenital anomalies.

Note: Congenital anomalies which were not detected at the time of birth are not included in this table. A recent study of five counties indicated that 15.7 percent of congenital anomalies were reported on the California birth certificate. For further detail see *Evaluation of Hospital Discharge Index and Birth Records*, California Birth Defects Monitoring Program, Department of Health Services.

Source: State of California, Department of Health Services, Birth Records.

[1] FOR STATISTICAL PURPOSES, MARITAL STATUS IS ESTIMATED BY AN INFERENTIAL METHOD. FOR DETAILS OF THE INFERENTIAL METHOD, SEE BERKOV, BETH, "AN EVALUATION OF CALIFORNIA'S INFERRED BIRTH STATISTICS FOR UNMARRIED WOMEN", NATIONAL CENTER FOR HEALTH STATISTICS, VITAL AND HEALTH STATISTICS, SERIES 2, NO. 97, 1985.

[2] LIVE BIRTHS WHERE RACE OF MOTHER WAS "WHITE" AND "HISPANIC" OR "NON-HISPANIC" ORIGIN OF MOTHER WAS UNKNOWN ARE INCLUDED ONLY IN THE "ALL RACES" CATEGORY. THERE WERE 1,034 "TOTAL LIVE BIRTHS" AND 288 "NONMARITAL LIVE BIRTHS" WITH THIS UNKNOWN DESIGNATION. FOR THIS REASON, SUBSEQUENT RACE AND "NOT STATED" CATEGORIES WILL NOT SUM TO THE "ALL RACES" TOTAL.

[3] INCLUDES LIVE BIRTHS TO WOMEN OF HISPANIC, NON-HISPANIC AND UNKNOWN HISPANIC ORGIN.

[4] THE COUNTS OF NONMARITAL BIRTHS IN THE "OTHER" RACE GROUP MAY BE LOW, DUE TO THE DIFFICULTY OF APPLYING INFERENTIAL CRITERIA TO BIRTHS IN THIS GROUP; SEE REFERENCE GIVEN IN FOOTNOTE 1.

SOURCE: STATE OF CALIFORNIA, DEPARTMENT OF HEALTH SERVICES, BIRTH RECORDS.

1 FOR STATISTICAL PURPOSES, MARITAL STATUS IS ESTIMATED BY AN INFERENTIAL METHOD. FOR DETAILS OF THE INFERENTIAL METHOD, SEE BERKOV, BETH, "AN EVALUATION OF CALIFORNIA'S INFERRED BIRTH STATISTICS FOR UNMARRIED WOMEN", NATIONAL CENTER FOR HEALTH STATISTICS, VITAL AND HEALTH STATISTICS, SERIES 2, NO. 97, 1985.

2 INCLUDES LIVE BIRTHS TO WOMEN OF ALL RACES INCLUDING WHITE, BLACK, OTHER AND UNKNOWN RACE.

3 LIVE BIRTHS WHERE RACE OF MOTHER WAS "WHITE" AND "HISPANIC" OR "NON-HISPANIC" ORIGIN OF MOTHER WAS UNKNOWN ARE INCLUDED ONLY IN THE "ALL RACES" COLUMNS. THERE WERE 1,034 "TOTAL LIVE BIRTHS" AND 288 "NONMARITAL LIVE BIRTHS" WITH THIS UNKNOWN DESIGNATION.

4 INCLUDES LIVE BIRTHS TO WOMEN OF HISPANIC, NON-HISPANIC AND UNKNOWN HISPANIC ORIGIN.

* PERCENTS ARE NOT CALCULATED FOR BASE LESS THAN 100.

** PERCENTS ARE NOT CALCULATED FOR FEWER THAN 5 EVENTS.

NOTE: QUANTITIES MORE THAN ZERO BUT LESS THAN 0.05 ARE REPRESENTED AS 0.0.

UNDER 37 WEEKS	53	-	11	-	4	36	2
37-42 WEEKS	10	-	4	-	-	6	-
43 WEEKS AND OVER	-	-	-	-	-	-	-
NOT STATED	23	-	6	-	-	16	1

NOTE: INCLUDES ONLY THOSE FETAL DEATHS OF 20 WEEKS OR MORE GESTATION.

'NOT STATED' AS TO WEEKS OF GESTATION CATEGORIES, INCLUDES NOT ONLY THOSE NOT STATED, BUT ALSO 37 FETAL DEATHS OF 53 WEEKS OR MORE GESTATION. THESE LATTER CATEGORIES REFLECT REPORTING INACCURACIES RATHER THAN ACTUAL GESTATION PERIODS.

SOURCE: STATE OF CALIFORNIA, DEPARTMENT OF HEALTH SERVICES, FETAL DEATH RECORDS.

Table 3–7

NUMBER AND PERCENT OF FETAL DEATHS BY WEEKS OF GESTATION CALIFORNIA, 1987

(By place of residence)

WEEKS OF GESTATION	FETAL DEATHS	PERCENT	
		All Fetal Deaths	Excluding Unknown Gestation
Total	3,504	100.0	100.0
Under 37 Weeks	2,011	57.4	67.9
37–42 Weeks	868	24.8	29.3
43 Weeks and Over	81	2.3	2.7
Not Stated[1]	544	15.5	. . .

[1] "Not Stated" includes not only those not stated, but also 37 fetal deaths of 53 weeks or more gestation. These latter categories reflect reporting inaccuracies rather than actual gestation periods.

Note: Includes only those fetal deaths of 20 weeks or more gestation.
Percents are rounded independently and may not add to totals.

1 Direct method of adjustment to 1960 California single total births by age of mother, excluding age unknown.
2 Fetal and perinatal death rates are per 1,000 total single births; neonatal and infant death rates are per 1,000 single live births; postneonatal death rates are per 1,000 infants surviving 28 days or more.
3 Fetal deaths under 20 weeks' gestation are excluded.
4 Fetal death rates include some induced terminations.
5 Not strictly comparable to the category "Spanish/Hispanic Origin" used in this report for live births and fetal deaths. For method used to classify Spanish, see Robert W. Buechley, "A Reproducible Method of Counting Persons of Spanish Surname," *Journal of the American Statistical Association*, 55:88–97, 1961. Blacks with Spanish surnames included in "Black" race category.

Note: Figure in parenthesis is standard error of rate.

1 DEATHS OCCURRING DURING FIRST 27 DAYS OF LIFE.
2 DEATHS OCCURRING BETWEEN THE 28TH DAY AND THE END OF THE FIRST YEAR OF LIFE.

A RATES ARE NOT CALCULATED FOR FEWER THAN FIVE EVENTS.
B MORE THAN ZERO BUT LESS THAN 0.050.

NOTE : RATES ARE PER 100,000 LIVE BIRTHS (1987 LIVE BIRTHS- 503,376).
PERCENTS ARE ROUNDED INDEPENDENTLY AND MAY NOT ADD TO TOTALS.

Table 5-1 Ten leading causes of death: California, 1986 and 1987 147
5-1A Ten leading causes of death by race (White): California, 1986 and 1987 148
5-1B Ten leading causes of death by race (Black): California, 1986 and 1987 149
5-1C Ten leading causes of death by race (Hispanic): California, 1986 and 1987. 150
5-1D Ten leading causes of death by race (Asian and Other): California, 1986 and 1987 151
5-2 Five leading causes of death by sex and age: California, 1987 152
5-2A Five leading causes of death by sex, age, and race (White): California 1987 154
5-2B Five leading causes of death by sex, age, and race (Black): California, 1987 156
5-2C Five leading causes of death by sex, age, and race (Hispanic): California, 1987 158
5-2D Five leading causes of death by sex, age, and race (Asian and Other): California 1987 160

5-3 Age- and sex- specific death rates and percent change: California, 1985-1987 .. 162
5-4 Deaths by sex, race, and age: California, 1987 163
5-5 Deaths by sex, Spanish/Hispanic origin and age: California, 1987 164
5-6 Deaths by sex, race, and age: California counties, 1987 165
5-7 Deaths by sex, Spanish/Hispanic origin and age: California counties, 1987 187
5-8 Deaths by month of death: California counties, 1987 205
5-9 Deaths from selected external causes of injury and poisoning: California counties, 1987 (By Place of Occurrence)..... 206
5-10 Deaths from selected causes: California counties, 1987 208
5-11 Deaths from AIDS (Acquired Immune Deficiency Syndrome), By Sex, Race/ Ethnicity, and Age, California, 1987.... 223
5-12 Deaths from AIDS by sex and age group: California counties, 1987............... 225
5-13 Deaths rates from malignant neoplasms by site: California counties, 1987 231
5-14 Deaths from each cause by sex and age: California, 1987 (microfiche in back cover)

Figure 5-A Percent distribution of the ten leading causes of death: California, 1987 145
5-B Percent change in rate for the ten leading causes of death: California, 1986-1987 146
5-C Death from AIDS (Acquired Immune Deficiency Syndrome), By Age, California, 1987 224
5-D Death rates from malignant neoplasms by site, California 1987 233

VITAL STATISTICS REGISTRATION

History of Vital Statistics Registration

Less than a decade after the formation of California State Government in 1850, a law was enacted requiring the state registration of vital events. The law was repealed in 1860; births and deaths were then registered by local offices and were incomplete. Effective statewide registration of births, deaths, and marriages began in California in 1905 when the Bureau of Vital Statistics was established to direct the maintenance of a statewide registration and reporting system. Statewide registration and reporting of births, deaths, and marriages has continued without interruption since that date. California was admitted to the United States Death Registration Area in 1906, to the Birth Registration Area in 1919, to the Marriage Registration Area in 1957, and to the Divorce Registration Area in 1968.

In 1962, a statewide reporting system for divorces and annulments was established. Because the report of final decree contained very few items of information, only a limited index and simple counts by county were available. A more extensive divorce reporting system went into effect in 1966, requiring that initial complaints and final decrees be reported. The Family Law Act of 1969, implemented January 1, 1970, removed adversary proceedings, changed the name of the decrees of marital dissolution, and reduced the waiting period from initial filing to final decree. In 1978, the Legislature sharply reduced the scope of California's marriage dissolution reporting system, and in that same year, California was dropped from the U.S. Divorce Registration Area. Since 1978, county clerks report to the State Registrar only type of final decree, county case number, spouses' names, and date decree granted.

From 1905 through 1939, a stillbirth required filing both a birth and a death certificate. The birth certificate contained an item requiring the attendant at birth to indicate whether or not the child was born alive. Processing of these birth certificates was exactly the same as for certificates of live birth, except that they were excluded from the live birth tabulations. Beginning in 1940, stillbirths were registered on a Certificate of Stillbirth, which has been known as a Certificate of Fetal Death since 1952.

Registration Systems at Present

In California, the registration of vital events is uniformly governed by statutory provisions set forth in Division 9 of the California Health and Safety Code. The Director of Health Services is the State Registrar of Vital Statistics. Forms, standards, and guidelines are provided by the Office of State Registrar, State Department of Health Services. (See "The Vital Statistics System in California," inside front cover, for further functional definitions.)

Live Birth, Death, and Fetal Death Registration

Births, deaths, and fetal deaths are registered with the local registrar in the county or registration jurisdiction where the event took place. Registration forms are furnished by the State Registrar. Local registrars prepare and maintain copies of original certificates; original certificates are then mailed to the State Registrar, indexed, and filed as permanent records.

The Health and Safety Code names local health officers of approved full-time local health departments as local registrars. Forty-seven of California's 58 counties have approved full-time local health departments. In the 11 counties (Alpine, Amador, Calaveras, Glenn, Lassen, Mariposa, Modoc, Mono, San Benito, Sierra, and Trinity) without approved full-time health departments, local registrars are appointed by the State Registrar.

Each live birth must be registered with the local registrar within ten days following the birth. For births occurring in a hospital, the hospital administrator or designee is responsible for registering the birth. For out-of-hospital births, the physician or other person in attendance is responsible for the registration; if no attendant is present, one of the parents must complete the registration (Health and Safety Code, Division 9, Chapter 3, Article 1).

Each fetal death in which the fetus has advanced to or beyond the 20th week of uterogestation must be registered with the local registrar within five days following delivery, prior to any disposition of the fetus (Health and Safety Code, Division 9, Chapter 4, Article 1). It is the responsibility of the attending physician or the coroner to certify the cause of death. It is the responsibility of the funeral director, or person acting in lieu thereof, to obtain all information other than that in the medical and health section, and to register the certificate.

Each death must be registered with the local registrar within five days after the death occurs, prior to any disposition of the human remains. The persons charged with this responsibility are the funeral director, or person acting in lieu thereof, and the physician in attendance or the coroner (Health and Safety Code, Division 9, Chapter 5, Article 1).

It is the responsibility of the physician last in attendance to complete the medical and health section of the death certificate, including the cause of death. However, in the event that no physician was in attendance within 20 days of the death, or the physician is unable to state the cause of death, the death becomes a coroner's case. In all cases where suicide or homicide is suspected, or where there was an accident or injury, it is the coroner's duty to investigate the death.

Marriage and Marriage Dissolution Registration

There are two types of marriage licenses which may be issued in California, a "regular" license (Civil Code, Section 4100) and a "confidential" license (Civil Code, Section 4213). Both types of licenses are contained in a three-part form. The forms are furnished by the Office of State Registrar to the county clerks responsible for issuing them. The original portion, Part 1, becomes the marriage certificate after the ceremony has been solemnized.

A regular license may be used anywhere in the State of California while a ceremony performed based upon the issuance of a confidential license may only be performed in the county in which the license was issued. Each marriage must be registered with the local registrar by the person performing the ceremony within four days after the solemnization. The county recorder is the local registrar of regular marriages and is responsible for transmitting the Certificate of Registry of Marriage to the Office of State Registrar.

The county clerk is the local registrar of confidential marriages and is responsible for transmitting a copy of the Certificate of Confidential Marriage to the Office of State Registrar. Unlike records of regular marriage, records of confidential marriages are not open to public inspection in the local registrar's office or the Office of State Registrar, except upon order of the Superior Court.

Certificates of Final Decree of Dissolution of Marriage, Judgment of Nullity, or Legal Separation are transmitted to the State Registrar by the county clerk of the county in which the decree was granted.

SOURCES AND QUALITY OF VITAL STATISTICS DATA

Records

Vital statistics records of the State Department of Health Services are the source of data presented in this report. These records include certificates of live birth, death, fetal death, registry of marriage, and reports of marriage dissolution granted.

Births, Deaths, and Fetal Deaths

Certificates of live birth, death, and fetal death that occur out of state are reallocated to the state of residence. In this report, events occurring out of state to California residents are included in tables subtitled "by place of residence". Mortality and natality data have been tabulated by place of residence since 1945; in all years since then, except 1947, reallocated certificates have been included in California residence data.

Reallocation of birth, death, and fetal death certificates to the state of residence has been virtually complete within the United States since 1955. This was made possible by a cooperative program among the states to exchange copies of certificates for nonresident events. There is no reallocation of records for events occurring in foreign countries.

California birth registration is considered to be complete for births occurring in California, and nearly so for out-of-state births to California residents. An extensive study of the completeness of birth registration was conducted by the Bureau of the Census.[1] It found that during a five-year period in the United States, birth registration was 99.2 percent complete.

Death registration is considered to be almost 100 percent complete because a death certificate must be filed before a burial permit is issued. Some underregistration may occur for deaths of children under one year of age, and particularly to children dying in the first day of life.

Though no thorough study of the completeness of California's fetal death registration has been conducted recently, it appears that the legally mandated death registration of fetuses that have advanced to or beyond the 20th week of gestation is not complete. The extent and consistency of such nonreporting is unknown at this time.

California Birth Cohort File

In population research, a cohort is a group of individuals who have experienced the same significant demographic event during a specific period of time (usually a year), and who may be identified as a group at successive later dates by this common demographic experience. Cohort studies enable accurate descriptions of changes occurring in a specific group of individuals over time. The most common and important cohort is a birth cohort, persons born during the same year or years.

Since 1965, the Department of Health Services has linked California's live birth and infant death records on computer tapes to create the California Birth Cohort File. Each cohort consists of records of live births and fetal deaths registered in a calendar year. The death records of infants who die during their first year of life are then matched and linked to their respective live birth records in the California Birth Cohort

---

[1] U. S. Department of Commerce, Bureau of the Census, **Test of Birth Registration Completeness, 1964-1968**, PHC (E)-2, 1973.

File. Rates computed from this birth cohort file are a direct measure of infant loss because they represent the mortality experience of a particular group (cohort) of infants from birth to one year of age.

The Birth Cohort File may be used to compute fetal, neonatal, perinatal, postneonatal, and infant mortality rates for a number of characteristics of the mother and child that are only available on the birth and fetal death certificates, such as age of mother, birth order, place of delivery, trimester prenatal care began, birthweight, gestational age, and race/ethnicity.

Studies have shown that the designation of race/ethnicity on the birth certificate is more accurate than on the death certificate.[2] The Birth Cohort File enables more accurate race-specific death rates, since race for both the numerator and the denominator of rates are taken from the birth certificate information. The category "White Spanish" for race of child in the Birth Cohort data is not comparable to "Spanish/Hispanic Origin" used in this report for live births and fetal deaths. The "White/Spanish" category is determined from the Spanish surname of the child and the White race of child. The "Spanish/Hispanic Origin" is determined from the mother's self-identification of her Spanish/Hispanic origin.

Life Tables

Life tables have been used for a long time as analytical tools in the study of mortality. There are basically two types of life tables -- the generation or cohort life table and the current life table. The generation life table provides a longitudinal perspective in that it includes the mortality experience of a particular cohort, all persons born in the year 1900 for example, from the moment of birth through consecutive ages until no one remains in the original cohort. The more widely used current life table may, by contrast, be characterized as cross-sectional.

A current life table for 1987 assumes a hypothetical cohort subject throughout its lifetime to the age-specific mortality rates prevailing for the actual population in 1987. One of the obvious weaknesses of this type of life table is that it does not take into account later changes in the mortality experience of the population. Despite this limitation, the current life table is generally regarded as the best summary of the mortality experience of a given population and a useful analytical tool for comparing the mortality experiences of different population subgroups.

[2] Frank D. Norris and Paul W. Shipley, "A Closer Look at Race Differentials in California's Infant Mortality, 1965-67," Health Services and Mental Health Administration Health Reports, Vol. 86, No. 9: 810-814, September 1971; Frost, F. and Shy, K. K.: "Racial Differences Between Linked Birth and Infant Death Records in Washington State," **American Journal of Public Health**, Vol. 70, No. 9: 974-976, September 1980.

Life tables may also be distinguished according to the length of the age intervals used in constructing the tables. When the life table is constructed using every single year of age from birth to the last applicable age, the table is referred to as a complete life table. An abridged life table, on the other hand, is constructed using broader age intervals, generally five years.

The table presented in this report is derived from current abridged life tables for males and females by selected years. The methodology used in constructing life tables is described in detail in the report, "Methodology for Constructing Abridged Life Tables for California for 1977," Data Matters, 81-01021, Department of Health Services, January 1981. The standard life table methodology was employed utilizing Chiang's formulae and the "fraction of last year of life" adjustments in calculating the probability of death.[3]

Quality Control Procedures

Because about a million California certificates are processed annually, errors can be introduced into vital statistics data unless provisions are made for appropriate quality control measures. Selected certificate information is key-entered and verified onto computer tapes which are then edited for completeness and accuracy. Finally, a sample of records is reviewed to identify random errors. Error rates in the aggregate are less than one percent, and identified errors are corrected.

Population

Vital statistics provide better measures of health status when they are related to the characteristics of the population. Because human populations vary in size and composition, and the number of vital events that occur depends on both these factors, *rates* or *ratios* are used to make accurate comparisons. These control for population variability by reporting the number of events *per unit of population* (or other standard denominator).

The population data used as denominators for calculating rates of vital events per unit of population are prepared by the Demographic Research Unit of the California Department of Finance. The data employed include the resident military and civilian populations, as of July 1, for each year.

---

[3] Chiang, Chin Long, **Life Table and Mortality Analysis**, World Health Organization, 1978

The population and rates for the years 1980 - 1984 were revised to reflect the latest population projections and estimates. Intercensal years prior to 1980 have already been adjusted by the Demographic Research Unit to reflect the respective censuses and were used as adjusted. This office revises its population denominators as the population data are revised by the Demographic Research Unit. For these reasons, care should be taken when comparing rates to earlier publications.

LIMITATIONS OF DATA

Limitations of the data must be recognized before valid interpretation is possible. For vital statistics data, these limitations are related to difficulties in reporting and classifying information and to some underregistration of events. It is necessary to exercise particular caution when evaluating vital statistics trend data because medical concepts, legal codes, definitions concerning vital statistics events, estimates of the population, race, and methods of assigning causes of death change over time.

Cause of Death

One of the most important uses of vital statistics data is the study of trends over time in the number and rate of deaths, by cause of death. Vital statistics trend research yields invaluable information on the health status of the population, and discloses which health and medical programs are succeeding. Even more importantly, studies of cause-of-death trends help identify emerging public health problems, so that remedial strategies can be developed and needed resources focused and applied.

However, vital statistics trend data are complicated by technical difficulties which limit the comparability of data over time. Changes in the method of assigning or coding causes of death are perhaps the greatest concern.

Cause-of-death statistics are derived from the medical certification information reported on the death or fetal death certificate by the attending or certifying physician or coroner. The medical certification item on certificates of death and fetal death makes provision for the reporting of three causes of death --immediate, intervening, and underlying -- plus additional information related to the cause of death. The cause of death selected for coding and tabulating in this report is the "underlying cause of death," which is generally defined as the disease or injury which initiated the sequence of morbid events leading directly to death.

Causes of death are coded according to the *Ninth Revision International Classification of Diseases (ICD)*, and the *Vital Statistics Instruction Manual, Part 2a, Instructions for Classifying the Underlying Cause of Death, 1981.* For the years 1969-1978, the causes of death were coded using the *Eighth Revision International Classification of Diseases, Adapted for Use in the United States (ICDA).*

Since its inception in 1898, the classification of diseases has been revised approximately every ten years. Each of the decennial revisions has produced some break in the comparability of cause-of-death statistics. These discontinuities have complicated the interpretation of trends in cause-of-death statistics over time. To facilitate trend analysis, comparability ratios between consecutive revisions of the *International Classification* may be calculated and applied. Ratios between the *Ninth Revision* and the *Eighth Revision* have not been calculated for California mortality data. However, the National Center for Health Statistics has published comparability ratios between the *Ninth* and the *Eighth Revisions* for deaths in the United States as a whole.[4] For an approximation, the ratios for the United States may be used to adjust California data for comparability between coding by the *Ninth Revision* (1979 to 1987), and coding by the *Eighth Revision* (1969-1978). For comparing the latter to 1960-1968 California deaths, see *Data Matters Topical Report*, "Comparability Between 7th and 8th Revisions, International Classification of Diseases," No. 725-0192-601, March 1976, State of California, Department of Health Services, Center for Health Statistics.

Tabulations of Cause of Death

Deaths by cause are presented in this report in several levels of detail. The table headed "Deaths from Each Cause by Sex and Age" presents the frequency of deaths assigned to each underlying cause of death in the Ninth Revision of the ICD for which there were one or more deaths in 1987. All fourth-digit subcategories are included. This table can be found on the microfiche attached to the inside of the back cover of this report.

1987 HIV Code Changes

Beginning with mortality data for 1987 the National Centers For Health Statistics (NCHS) introduced new category numbers *042-*044 for classifying and coding of AIDS and human immunodeficiency virus (HIV) infection, formerly referred to as human T-cell lymphotropic virus-III, lymphadenopathy-associated virus (HTLV-III/LAV). The asterick next to the category number indicates that these codes are not part of the Ninth Revision of the International Classification of Diseases (ICD-9).[5] In accord with NCHS, California has reclassified its 1987 HIV mortality data.

---

[4] National Center for Health Statistics, "Estimates of Selected Comparability Ratios Based on Dual Coding of 1976 Death Certificates by the Eighth and Ninth Revisions of the International Classification of Diseases," Monthly Vital Statistics Report, Vol. 28, No. 11, Supplement, February 29, 1980.

The United States established the new category numbers, *042-*044, in response to the urgent need of public health officials, clinical researchers and medical care financiers to better identify and monitor the incidence of AIDS and HIV infection.

The new category numbers for deaths classified to HIV infections for 1987 are included in All Other Infectious and Parasitic Diseases in the Selected Causes of Death Table (5-8). Prior to 1987, deaths involving HIV infection were classified in six causes associated with Acquired Immune Deficiency: ICD Codes 078.5, 117.5, 136.3, 173.9, 279.1, and 279.3. Due to the new classification numbers, cause-of-death data for 1987 are not strictly comparable with data for previous years.

Variability of Rates

Vital statistics rates are sensitive to variations in the size of both the numerator (the number of vital events that occurred), and the denominator (the estimated population, or the number of births). For example, in small counties, a variation of only a few cases in the numerator can cause a relatively large shift in a rate, while in a large county, it may cause no change at all. Alternatively, a minor revision in the estimate of the population in a small county may cause a relatively major change in a vital rate in that county.

All vital rates previously published for the years 1980 through 1986, which are included in this publication, have been recalculated, using revised population estimates. Recalculated rates for some counties may differ from those previously published even more than the statewide rates do.

Rates and ratios based on the number of births, instead of the population, are not subject to variability caused by changes in the size of estimated denominators. However, in small counties, these rates are just as sensitive to small shifts in the numerator as are rates based on the population, since few births occur in counties with small populations, and the denominator is correspondingly small.

---

5. National Center for Health Statistics: **Annual Summary of Births, Marriages, Divorces, and Deaths: United States, 1987**, Monthly Vital Statistics Report, Vol. 36, No. 13: 27, July 29, 1988.

Sampling Error and Vital Statistics

The number of births and deaths for an area reported in California's Vital Statistics represents complete counts; as such, they are not subject to sampling error, although they are subject to errors in the registration process. However, when the figures are used for analytic purposes, such as comparison of rates over a time period or for different areas, the number of events that actually occurred may be considered as one of a larger series of possible results that could have arisen under the same circumstances.[6] The probable range of values may be estimated from the actual figures according to certain statistical assumptions. The problem of small frequencies is well presented in the Technical Appendix to "The Vital Statistics of the United States, 1978, Volume I, Natality"[7] and is repeated here.

"In general, distributions of vital events may be assumed to follow the binomial distribution. Estimates of standard error and tests of significance under this assumption are described in most standard statistics texts. When the number of events is large, the standard error, expressed as a percent of the number or rate, is usually small.

"When the number of events is small (perhaps less than 100) and the probability of such an event is small, considerable caution must be observed in interpreting the conditions described by the figures. Events of rare nature may be assumed to follow a Poisson probability distribution. For this distribution, a simple approximation may be used to estimate the error as follows:

"If N is the number of births and R is the corresponding rate, the chances are 19 in 20 that

"1. The 'true' number of events lies between

$N - 2\sqrt{N}$ and $N + 2\sqrt{N}$

"2. The 'true' rate lies between

"$R - 2\frac{R}{\sqrt{N}}$ and $R \pm 2\frac{R}{\sqrt{N}}$

---

[6] National Office of Vital Statistics: "Standard Error of the Age-Adjusted Death Rate" by C.L. Chiang, **Vital Statistics -- Special Reports**, Vol. 47, No. 9, Public Health Service, Washington, DC, August 1961.

[7] National Center for Health Statistics: **Vital Statistics of the United States, 1978**, Vol. 1, DHHS Publ. No. (PHS) 82-1100, Public Health Service, Washington, DC, 1982.

"If the rate R corresponding to N events is compared with the rate S corresponding to M events, the difference between the two rates may be regarded as statistically significant if it exceeds

$$2\sqrt{\frac{R^2}{N}+\frac{S^2}{M}}$$

"For example, suppose that the observed birth rate for Area A was 15.0 per 1,000 population and that this rate was based on 20 recorded births. Given prevailing conditions, the chances are 19 in 20 that the 'true' or underlying birth rate for that area lies between 8.3 and 21.7 per 1,000 population. Let it be further supposed that the birth rate for Area A of 15.0 per 1,000 population were being compared with a rate of 20.0 per 1,000 population for Area B which is based on 10 recorded births. While the difference between the rates for the two areas is 5.0, this difference is less than twice the standard error of the difference

$$2\sqrt{\frac{(15.0)^2}{20}+\frac{(20.0)^2}{10}}$$

of the two rates which is computed to be 14.3. From this, it is concluded that the difference between the rates for the two areas is not statistically significant."

Time Periods and Geographic Bases

Before 1947, births and deaths were tabulated by year of registration. In 1947, births were tabulated by year of occurrence, while deaths were tabulated by year of registration. Beginning in 1948, births, deaths, fetal deaths, marriages, and marriage dissolutions have been tabulated by the calendar year in which the event occurred.

From 1949 through 1967, deaths in hospitals, sanitariums, and all other institutions were allocated to the previous residence regardless of the decedent's length of stay in the institution. Since 1968, deaths occurring in hospitals, sanitariums, and other resident institutions have been allocated to the last previous residence, unless the decedent resided in the institution for at least one year. All deaths in penal institutions and mental hospitals are allocated to the previous place of residence regardless of the length of stay in the institution.

Race and Ethnicity

Since 1979, information on the race and ethnicity of the father and mother has been reported voluntarily on the birth certificates. This information was mandatory prior to 1979. The percent of birth certificates with race/ethnicity reported was 96.5 in 1979, 98.3 in 1980, 98.6 in 1981, 99.2 in 1982 and 1983, 99.5 in 1984, 99.6 in 1985 and 1986, and 99.5 in 1987. The information obtained from the race and ethnicity items on both the birth and death certificates reflects the certificate informant's own responses. Therefore, underreporting for deaths and births may occur for some race/ethnicity groups, e.g., American Indians, some Asian groups, and Hispanics.

Studies of self-reporting on the birth certificate compared with three different schemes to assign Spanish surname show that underreporting for Hispanics is less frequent on birth certificates. However, the degree of potential underreporting of many of the detailed race/ethnicity groups, including American Indian and certain Asian groups, is not known. Please note these uncertainties when analyzing or using the detailed race/ethnicity data presented in this report.

From 1970 to 1977, the race of father and mother on the birth certificate were coded independently and the race of child was generated from the parents' codes. Starting in 1978, ethnicity was added to the coding scheme. Race and ethnicity of both parents were then used to generate the race and ethnicity of the newborn child. In 1982, the race/ethnicity categories used for births and fetal deaths were changed in order to be comparable with those used in the 1980 Census and thus, differ greatly from the 1981 categories. For information on prior comparisons, please refer to Vital Statistics of California, 1982 (Tables 7-1 and 7-2 and microfiche), State of California, Department of Health Services, Health Data and Statistics Branch of the Rural and Community Health Division.

In 1981, race/ethnicity was classified into eight categories for statistical analysis purposes: White, Black, Mexican/American, American Indian, Chinese, Japanese, Filipino, and Other. Statistically speaking, these groups were mutually exclusive; that is, an individual birth could be classified into only one of these categories. For example, the reporting of Mexican/American precluded being classified as White or any of the other groups. However, in 1982, the reporting of race/ethnicity and the reporting of Spanish/Hispanic origin were made completely independent of each other. A birth identified as one of the race/ethnicity groups could also be identified as Spanish/Hispanic origin; conversely, a live birth identified as Spanish/Hispanic origin would also be identified as one of the race/ethnicity groups. As a result, a number of the live birth and fetal death tables in this report tabulated by race/ethnicity are repeated for Spanish/Hispanic origin.

Beginning with 1985 California vital events, the coding rules for determining specific race/ethnicity and Spanish/Hispanic origin were modified slightly to be consistent with the National Center for Health Statistics (NCHS) coding specifications. To be consistent, California had to modify the Spanish/Hispanic origin coding instructions and categories used previously. Three new categories were added to Spanish/Hispanic origin. They were "Central/South American," "Other Spanish/Hispanic" (born outside the U.S.), and "Other Spanish/Hispanic" (born inside the U.S.). In order for 1985-1987 California vital statistics tape files to be comparable with 1984, Central/South American and Other Spanish/Hispanic (born outside the U.S.) are now combined with "Other Hispanic." Other Spanish/ Hispanic (born inside the U.S.) is now combined with "Mexican."

One of the categories added to comply with State Law was "Other Pacific Islander," which is now combined with the previous "Pacific Islander" category. Prior to adding "Other Pacific Islander", those births were placed into the "Other Races" category.

In order to get comparable race/ethnicity categories for 1985 and 1984 deaths, a schemata was designed to recode the 1985 classifications so that the race/ethnicity of the deceased could be redistributed into the 1984 categories. The regrouping schemata is as follows:

1985-87 Classification	1978-84 Classification
Not Stated	White
White	White
Black	Black
American Indian	American Indian
Chinese	Chinese
Japanese	Japanese
Filipino	Filipino
Cambodian	Other
Indian (India)	Other
Korean	Other
Pacific Islander	Other
Thai	Other
Vietnamese	Other
Other Asian	Other
Other	Other

Since the 1985 report, the Spanish/Hispanic origin data have been reported separately for the death tabulations. The Spanish/Hispanic death tables are reported in a similar fashion as in the Spanish/Hispanic birth tables.

Tables 5-1 A-D, "Ten Leading Causes of Death -- White, Black, Hispanic, and Asian and Other," and Tables 5-2 A-D, "Five Leading Causes of Death by Sex and Age" -- White, Black, Hispanic, and

Asian and Other, are new additions to the annual Vital Statistics of California report. These tables are unique in that the race\ethnicity categories are mutually exclusive.

In Tables 5-1 A-D and 5-2 A-D the classifications are:

White non-Hispanic:	Classification includes decedent coded as White with no or unknown Spanish origin.
Black non-Hispanic:	Classification includes Black non-Hispanic: Decedent coded as Black with no or unknown Spanish origin.
Hispanic:	Decedent with Spanish origin listed as Mexican/Mexican-American/Chicano, Puerto Rican, Cuban, Central/South American or Other Spanish/Hispanic (specified), regardless of race/ ethnicity classification.
Asian and Other non-Hispanic:	Decedent coded as Asian (unspecified) or Asian (specified): Laotian, Chinese, Japanese, Korean, Vietnamese, Cambodian, or Thai: with no or unknown Spanish origin. Other includes decedents coded as American Indian, East Indian, Filipino, Hawaiian, Guamanian, Samoan, Eskimo, Aleut, Pacific Islander, or Other (specified): with no or unknown Spanish origin.

Based on the birth cohort file, which links births and infant deaths, it has been shown that notable underreporting of infant deaths occurs for certain race/ethnicity groups, i.e., Hispanic, American Indian and certain Asian and Pacific Islander groups. The origin of race/ethnicity data are the birth and death certificates. Race/ethnicity on the birth certificate is usually reported by one of the parents. Race/ethnicity on the death certificate is sometimes questionable because it is not always obtained from a family member of the decedent. It is unknown to what extent the underreporting found for infant deaths applies to other age groups, therefore death data for Hispanics, American Indians and certain Asian and Pacific Islander groups should be used with caution when analyzing or using the detailed race/ethnicity data presented in this report.

Age

The death certificate contains both the age and the date of birth of the decedent. For computer tabulations, the age at death is generated from the difference between the date of birth and the date of death. For infants living less than 24 hours and for other deaths where date of birth is not reported, the stated age is accepted.

Length of Gestation

Length of gestation is calculated for live births and fetal deaths by subtracting the date the last normal menses began from the date of birth. The accuracy of this calculation is contingent upon the mother's recall of her last menstrual period. If only the month and year are given, the day is imputed. If a date is not reported, no calculation is made. The calculation is made in completed weeks of gestation.

CERTIFICATES AND LISTS OF VARIABLES

The vital statistics data presented in this report constitute only a part of the information reported on vital records. Other variables which were processed for births, deaths, and fetal deaths are shown in this section. Tabulations and cross-tabulations for most of these items can be provided for at cost, upon request.

DEFINITIONS

Following is a glossary of technical terms used in this report:

Place of occurrence:	The place where the event occurred (regardless of place of residence).
Place of residence:	The place where a person lives or maintains legal residency. For live births and fetal deaths, the mother's residence is used.

Births

Childbearing age:	Women 15 through 44 years of age.
Fetal death:	A death prior to the complete expulsion or extraction from its mother of a product of conception (irrespective of the duration of pregnancy); the death is indicated by the fact that after such separation, the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles. This definition was promulgated by the World Health Organization in 1950 and is set forth in the California Administrative Code, Title 17, Chapter 1, Article 3. If the fetus is of 20 weeks or more gestational age, the death must be registered with the local registrar.
Live birth:	The complete expulsion or extraction from its mother of a product of conception (irrespective of the duration of pregnancy) which, after such separation, breathes or shows any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached. This definition was promulgated by the World Health Organization in 1950 and is set forth in the California Administrative Code, Title 17, Chapter 1, Article 3.
Total births:	Total deliveries: live births plus fetal deaths.
Live birth order:	The number of live births delivered by this mother including the current birth.
Low birthweight:	A live birth or fetal death weighing less than 2,500 grams (5 pounds, 8 ounces). (Prior to 1979, low birthweight was 2,500 grams or less. This definition complies with a change adopted by the National Center for Health Statistics, beginning with 1979 data.)
Premature:	A live birth or fetal death occurring before the 37th week of gestation.

Deaths

Maternal death:	A death resulting from complications of pregnancy or childbirth.
Fetal death:	(See Births).
Neonatal death:	A death occurring during the first 27 days of life.
Postneonatal death:	A death occurring between the 28th day and the end of the first year of life.
Perinatal deaths:	All fetal deaths of 20 or more weeks' gestation, plus neonatal deaths.
Infant death:	A death occurring during the first year of life.

RATES AND RATIOS

Birth Rates and Ratios

Age-specific birth rate

$$= \frac{\text{number of live births to women in specific age group}}{\text{estimated female population in that age group}} \times 1{,}000$$

Fetal death ratio

$$= \frac{\text{number of reportable fetal deaths}}{\text{total number of live births}} \times 1{,}000$$

General fertility rate

$$= \frac{\text{number of live births}}{\text{estimated female population 15–44 years old}} \times 1{,}000$$

Live birth rate
(crude birth rate)

$$= \frac{\text{number of live births}}{\text{estimated total population}} \times 1{,}000$$

Total fertility rate = sum of each age-specific birth rate multiplied by the number of years in each age group (e.g., for 5-year groups, 15–19, 20–24, . . . 40–44, the sum of the birth rates for each age group is multiplied by 5).

Death Rates and Ratios

Age-adjusted death rate
(direct method)

$$= \frac{\text{total number of expected deaths in a standard population (if the persons in this population had experienced the same age-specific death rates as the population being adjusted)}}{\text{total standard population}} \times 100{,}000$$

Age-specific death rate

$$= \frac{\text{number of deaths in specific age group}}{\text{estimated population in that age group}} \times 1{,}000 \text{ (or 100,000, as specified)}$$

Death rate
(crude death rate)

$$= \frac{\text{number of deaths}}{\text{estimated total population}} \times 1{,}000$$

Death rate from a
specific cause

$$= \frac{\text{number of deaths from a specific cause}}{\text{estimated total population}} \times 100{,}000$$

Fetal death ratio = (See Births)

$$\text{Infant death rate} = \frac{\text{number of deaths under 1 year of age}}{\text{total number of live births}} \times 1{,}000 \text{ (or 100,000, as specified)}$$

$$\text{Maternal death rate} = \frac{\text{number of deaths due to complications of pregnancy and childbirth}}{\text{total number of live births}} \times 10{,}000$$

$$\text{Neonatal death rate} = \frac{\text{number of deaths under 28 days of age}}{\text{total number of live births}} \times 1{,}000 \text{ (or 100,000, as specified)}$$

$$\text{Postneonatal death rate} = \frac{\text{number of deaths between 28 days of age and 1 year of age}}{\text{total number of live births}} \times 1{,}000 \text{ (or 100,000, as specified)}$$

$$\text{Perinatal death rate} = \frac{\text{number of fetal deaths of 20 or more weeks' gestation, plus neonatal deaths}}{\text{total number of births}} \times 1{,}000 \text{ (or 100,000, as specified)}$$

IF ANY ITEMS 28 THROUGH 32 ON CERTIFICATE OF LIVE BIRTH (FORM VS 10) ARE ANSWERED YES, USE THE CODES INDICATED ON THIS WORK SHEET FOR THE APPROPRIATE ITEM NUMBER.

Item 28. IF CESAREAN SECTION WAS PERFORMED, ENTER APPROPRIATE CODE:

1	Elective* Primary	3	Nonelective Primary
2	Elective* Repeat	4	Nonelective Repeat

* Cesarean section before or at onset of labor.

Item 29. COMPLICATIONS OF PREGNANCY AND CONCURRENT ILLNESSES (Use as many codes as are appropriate)

01	Placental Complications	09	Pulmonary
02	Pre-Eclampsia/Eclampsia/Toxemia	10	Syphilis
03	Hemoglobinopathy	11	Rubella
04	Urinary Tract/Kidney Infection	12	Rh (D) Iso-Immunization
05	Anemia Less Than 10 GM HB	13	Unspecified Uterine Bleeding Not Associated with Labor
06	Transport of Mother From Another Hospital After Onset of Labor	14	Renal Disease
		15	Previous Cesarean Section
07	Heart Disease/Essential Hypertension	16	Other
08	Diabetes		

Item 30. BIRTH INJURY TO CHILD (Use as Many Codes as are Appropriate)

1	To Brain	3	To Bone or Nerve
2	To Spinal Cord	4	Other

Item 31. COMPLICATIONS OF LABOR AND DELIVERY (Use as Many Codes as are Appropriate)

1	Amnionitis/Sepsis	5	Fetal Distress
2	Hemorrhage Associated with Labor	6	Maternal Blood Transfusion
3	Cephalopelvic Disproportion	7	Postpartum Hemorrhage
4	Breech or Other Abnormal Presentation	8	Transport of Infant to Another Hospital Within 24 Hours of Birth
		9	Other

Item 32. CONGENITAL MALFORMATIONS OR ANOMALIES OF CHILD (Use Codes on Reverse Side of This Sheet)

Do not enter any identification by name or
number of the patient on this work sheet.

CERTIFICATE OF LIVE BIRTH
MEDICAL DATA SUPPLEMENTAL WORK SHEET

Item 32. CONGENITAL ANOMALIES (ICD-9). Circle up to five most important anomalies.

CENTRAL NERVOUS SYSTEM (CNS)

01 Anencephaly (740.0) with or without spina bifida. Include craniorachisis (740.1) and iniencephaly (740.2).

02 Open spina bifida (741.0, 741.9). If hydrocephalus is also present, enter code 05 in addition to code 02.

03 Encephalocele (742.0).

04 Microcephalus (742.1).

05 Hydrocephalus (741 0, 742.3). If spina bifida is also present, enter code 02 in addition to code 05.

06 Other anomalies of central nervous system. (Remainder of 740–742).

EYE

07 Anophthalmos (743.0).

08 Congenital cataract (743.3).

09 Coloboma (743.4). Exclude other anomalies of anterior segments.

10. Other anomalies of eye. (Remainder of 743).

EAR, FACE, NECK

11 Branchial clefts (744.4).

12 Other anomalies of ear, face, and neck. (Remainder of 744).

CARDIAC

13 Truncus arteriosus (745.0).

14 Transposition of great vessels (745.1).

15 Tetralogy of Fallot (745.2).

16 Ventricular septal defect (VSD) (745.4).

17 Atrial septal defect (ASD) (745.5).

18 Endocardial– cushion defects (745.6).

19 Valve stenosis and insufficiency (746.0–746.6).

20 Hypoplastic left heart syndrome (746.7).

21 Patent ductus arteriosus (747.0).

22 Coarctation of aorta (747.1).

23 Other anomalies of heart and circulatory system. (Remainder of 745–747).

RESPIRATORY SYSTEM

24 Bilateral choanal atresia (748.0).

25 Agenesis, hypoplasia and dysplasia of lung (748.5).

26 Other anomalies of respiratory system. (Remainder of 748).

CLEFT PALATE, LIP

27 Cleft palate (749.0).

28 Cleft lip (749.1).

29 Cleft palate with cleft lip (749.2).

DIGESTIVE SYSTEM

30 Tracheo-esophageal fistula, esophageal atresia and stenosis (750.3).

31 Atresia and stenosis of large intestine, rectum, and anal canal (751.2).

32 Other anomalies of digestive system. (Remainder of 750–751).

GENITO-URINARY SYSTEM

33 Hypospadias and epispadias (752.6).

34 Indeterminate sex and pseudohermaphroditism (752.7).

35 Renal agenesis (753.0). Include bilateral only.

36– Cystic kidney disease (753.1).

37 Congenital ureteral obstruction (753.2).

38 Exstrophy of urinary bladder (753.5).

39 Other anomalies of genito-urinary system. (Remainder of 752–753).

MUSCULOSKELETAL DEFORMITIES

40 Hip dislocation without CNS (754.3).

41 Talipes or clubfoot (754.5–754.7).

42 Accessory thumbs or preaxial polydactyly (755.0). Exclude other accessory digits.

43 Missing extremity, partial or complete (755.2–755.4).

44 Syndromes of craniosynostosis (756.0). Exclude acrocephaly, hypertelorism, and oxycephaly.

45 Chondrodystrophy (756.4).

46 Anomalies of diaphragm (756.6).

47 Anomalies of abdominal wall (756.7). Exclude umbilical hernia.

48 Other anomalies of musculoskeletal system. (Remainder of 754–756).

49 **SKIN, NAILS, HAIR** (757.0–757.9).

50 **VISIBLE AMNIOTIC BANDS** (658.0).

CHROMOSOMAL ANOMALIES

51 Down's syndrome (758.0).

52 Autosomal trisomies. Include 13 (758.1) and 18 (758.2).

53 Abnormalities of sex chromosomes. Include Turner's (758.6) and Klinefelter's (758.7).

54 Other conditions due to chromosome anomalies. (Remainder of 758).

55 **OTHER AND UNSPECIFIED CONGENITAL ANOMALIES** (759.0–759.9 except 759.7).

98 **MULTIPLE NONSPECIFIC ANOMALIES** (759.7)

40 Hip dislocation without CNS (754.3).

41 Talipes or clubfoot (754.5–754.7).

42 Accessory thumbs or preaxial polydactyly (755.0). Exclude other accessory digits.

43 Missing extremity, partial or complete (755.2–755.4).

44 Syndromes of craniosynostosis (756.0). Exclude acrocephaly, hypertelorism, and oxycephaly.

45 Chondrodystrophy (756.4).

46 Anomalies of diaphragm (756.6).

47 Anomalies of abdominal wall (756.7). Exclude umbilical hernia.

48 Other anomalies of musculoskeletal system. (Remainder of 754–756).

49 **SKIN, NAILS, HAIR** (757.0–757.9).

50 **VISIBLE AMNIOTIC BANDS** (658.0).

CHROMOSOMAL ANOMALIES

51 Down's syndrome (758.0).

52 Autosomal trisomies. Include 13 (758.1) and 18 (758.2).

53 Abnormalities of sex chromosomes. Include Turner's (758.6) and Klinefelter's (758.7).

54 Other conditions due to chromosome anomalies. (Remainder of 758).

55 **OTHER AND UNSPECIFIED CONGENITAL ANOMALIES** (759.0–759.9 except 759.7).

98 **MULTIPLE NONSPECIFIC ANOMALIES** (759.7)

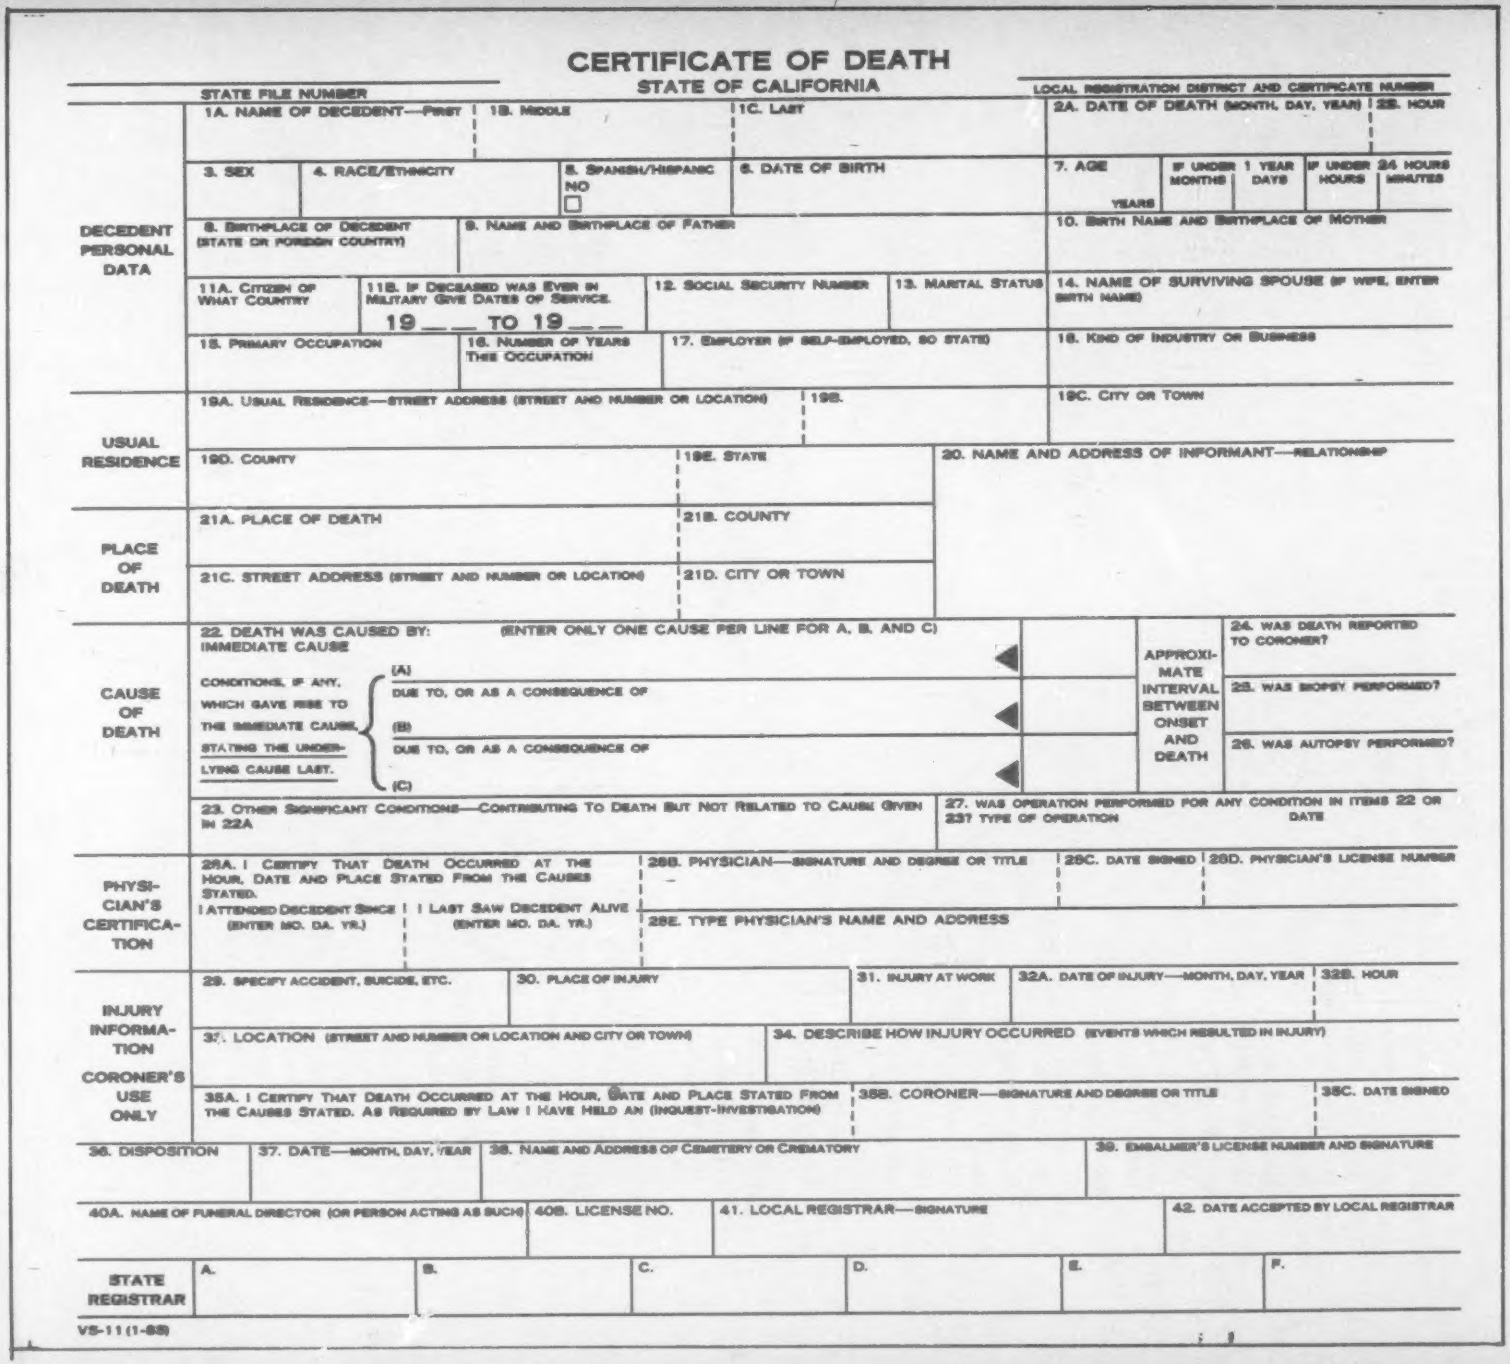
STATISTICAL INFORMATION AVAILABLE FOR FETAL DEATHS, 1987

VARIABLE	CERTIFICATE ITEM NUMBER
THIS FETUS	
Name (first, middle, last)	1A,B,C
Sex	2
Single, twin, triplet, quadruplet, quintuplet, or more	3A
If multiple birth, birth order	3B
Date of delivery (month, day, year)	4A
Race/Ethnicity of child (determined by race/ethnicity of mother and father)	22,25
Spanish/Hispanic origin (determined by Spanish/Hispanic origin of mother)	26
Birthweight	30
PLACE OF DELIVERY	
Maternity hospital code	5A
Type of hospital	5A
County of occurrence	5D
MOTHER OF CHILD	
Maiden surname	9C
Birthplace	10
Age	11
Race/Ethnicity	25
Spanish/Hispanic origin	26
County of residence	28E
FATHER OF CHILD	
Age	8
Race/Ethnicity	22
Spanish/Hispanic origin	23
MEDICAL AND HEALTH DATA	
Type of certifier	12A
Underlying cause of death	19C
Autopsy	21
Date last normal menses began	29A
Completed days of gestation	4A,29A
Month of pregnancy prenatal care began	29B
Previous deliveries to this mother	31A,B,C,D
Date of last live birth	31E
Date of last termination	31F
Caesarean section	32
Complications of pregnancy	33
Birth injury	34
Complications of labor and delivery	35
Congenital malformations	36



CERTIFICATE OF DEATH
